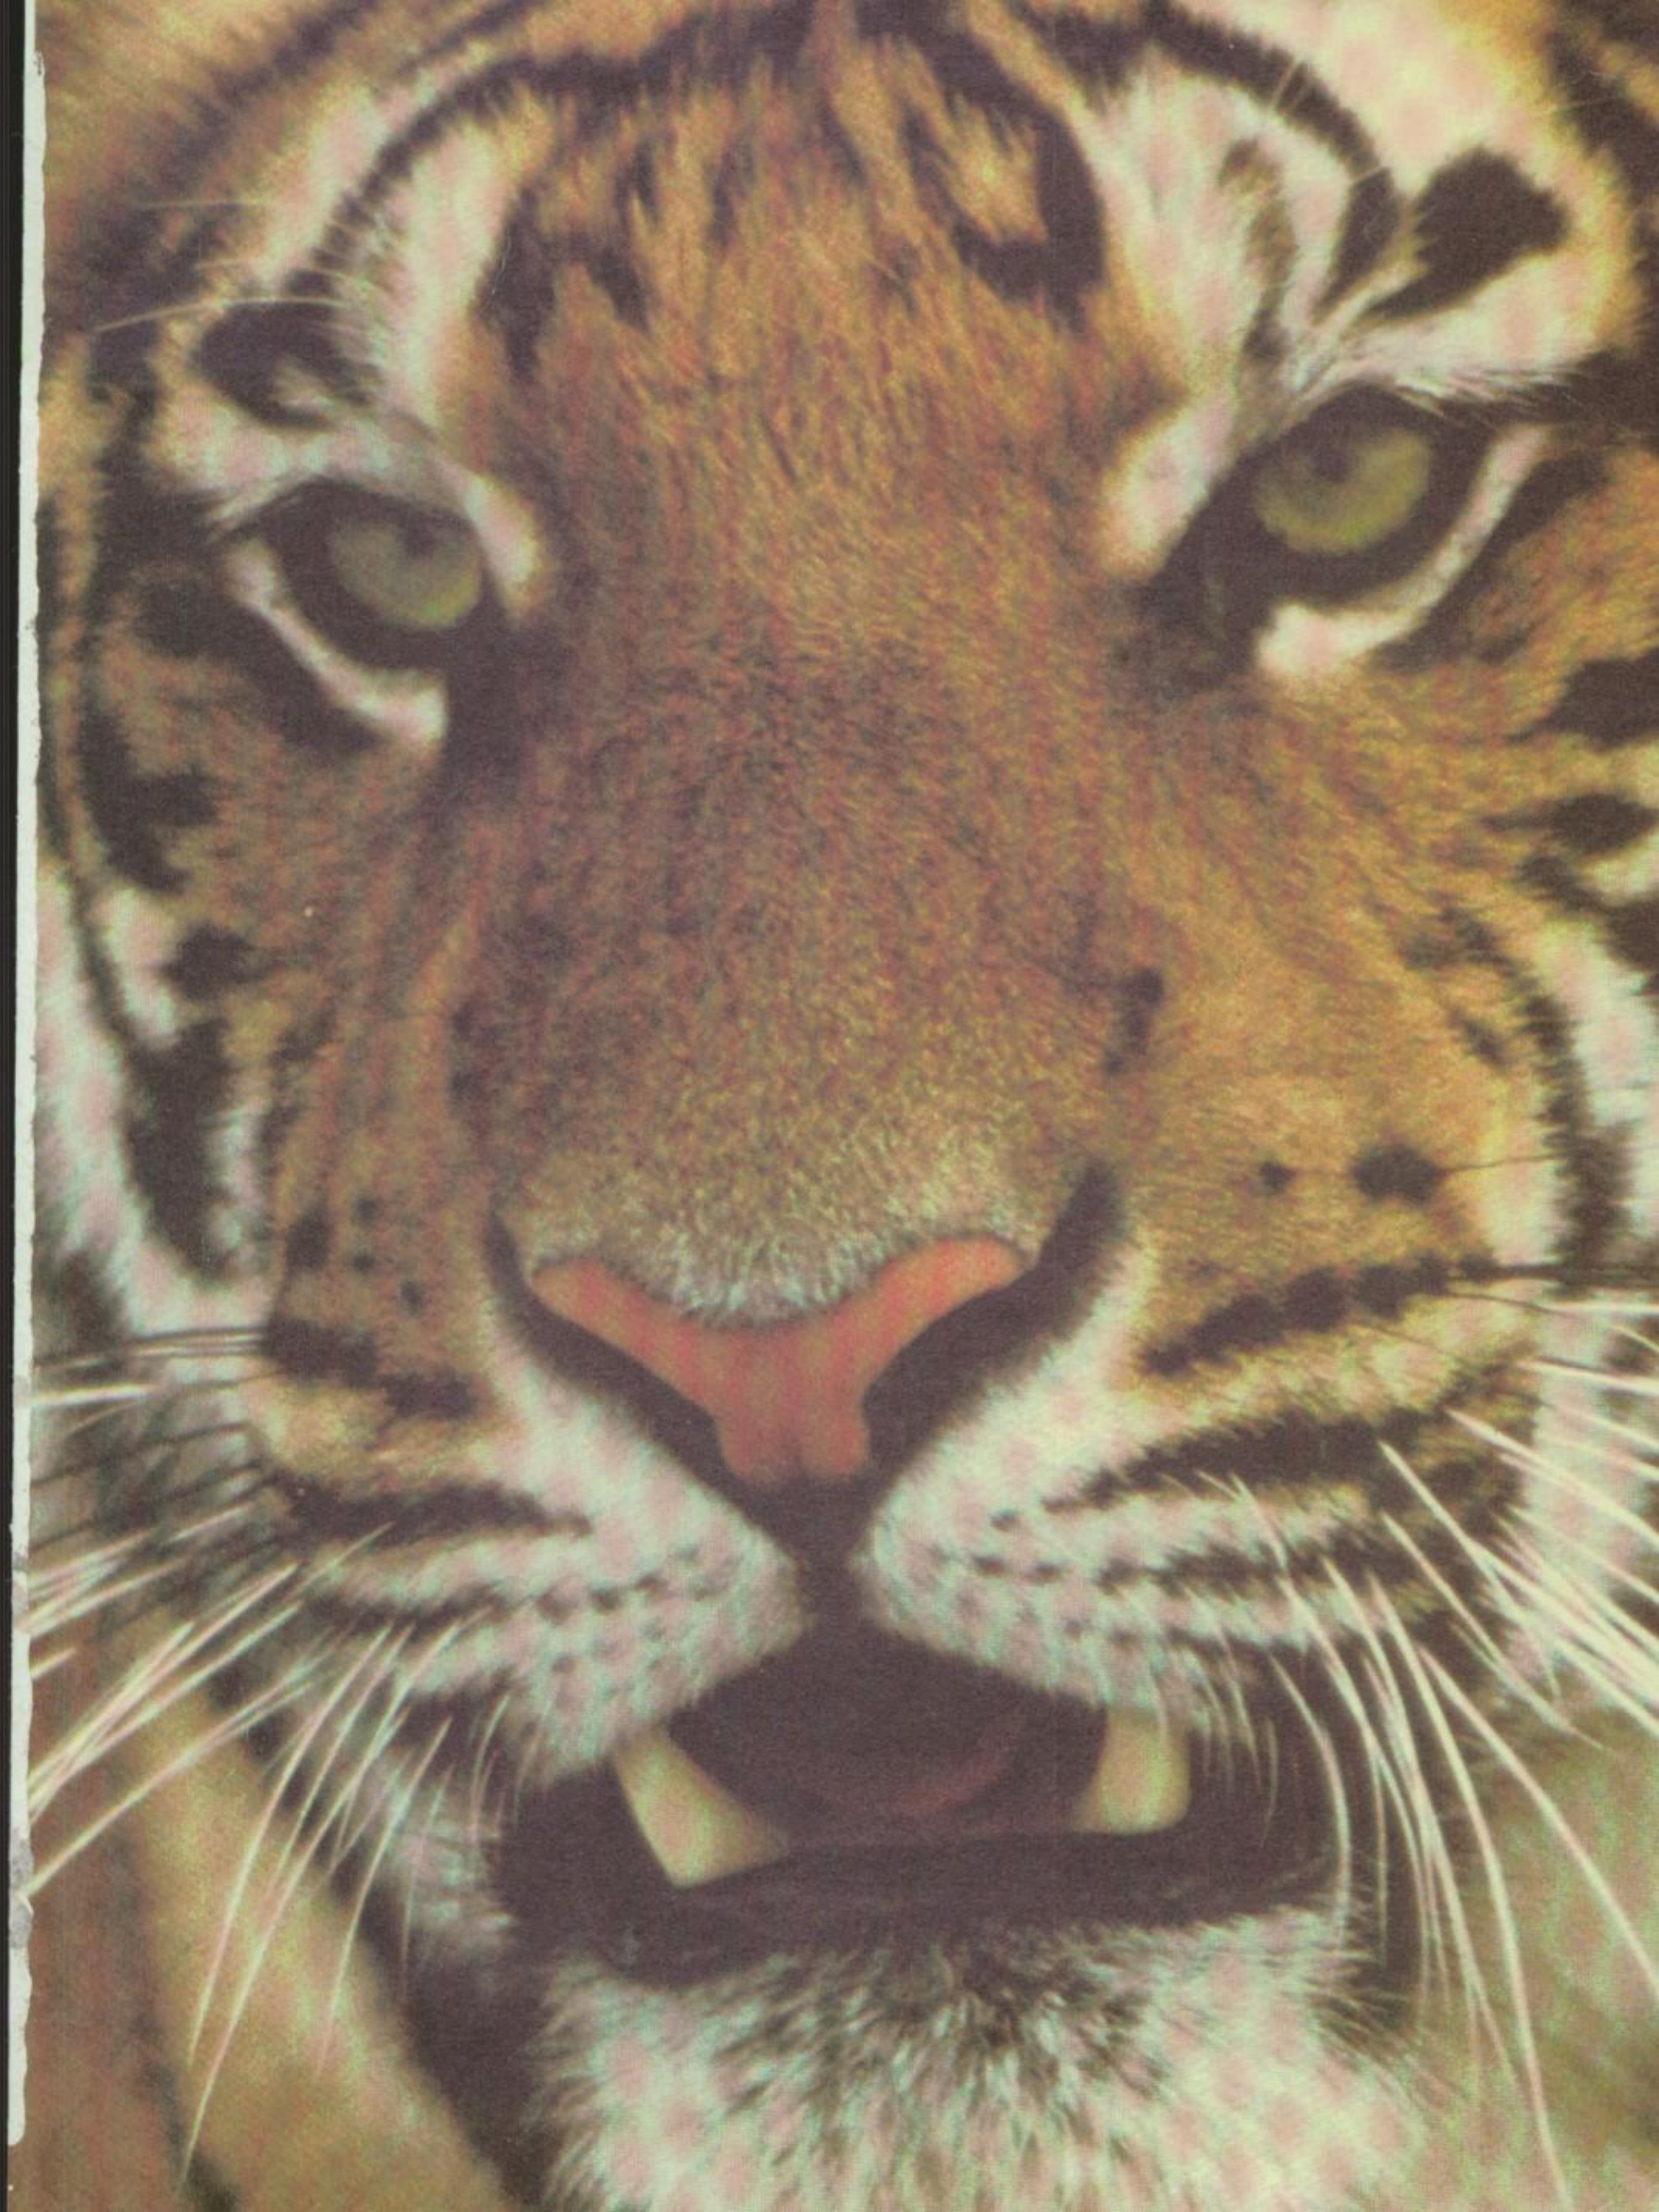
Morse High



A Tiger Welcome!!!

Morse High School opened during September 1962 and was named after Samuel Finley Breese Morse, famed American artist and inventor of the telegraph and the Morse Code. The school which is situated at 6905 Skyline Drive in San Diego, California accepted over 2,000 students this 1986-87 school year. Tigers tracked in from all across the county to be a part of Morse's diverse campus, some coming from as far as Rancho Penasquitos and La Jolla. Together students with Morse's faculty and principal, Virginia Foster made this year an exceptional one. Students found challenge after challenge as they tredded through the fields of academics, athletics and after school activities. In the end, Tiger pride shined through as Morse completed yet another successful year.

Found in the Finest . . .

Home to the Coronado Bridge, Shamu and Morse High, San Diego, also known as the 'Finest City' gave many Tigers a place to relax and purr . . .

The many attractions available throughout the city made the best of every day and night. There were always attractive places to shop, eat or see a movie in any of the several shopping malls, exotic Horton Plaza, Downtown La Jolla, Mission Valley, Fashion Valley or nearby Plaza Bonita.

For visiting friends, a trip to Sea World, the San Diego Zoo, Wild Animal Park or right over the boarder to Mexico was surely not to be missed.

But the ever popular beaches were always the best place for social gatherings. On a nice, hot, sunny day everyone flocked to the waters of Mission Bay, Mission Beach, Pacific Beach, Ocean Beach, La Jolla Shores, Cardiff and Del Mar. Who ever said that Tigers couldn't swim???

"FOLLOW YOUR DREAMS"

An annual event at Morse, the Homecoming Parade, under the '86 theme, "Follow Your Dreams," was once again a success as many onlookers were entertained by a variety of parade participants. The parade was led by newly formed Letterettes and Twirl Flags, and Grand Marshall, Mr. Nunnelly Sims. Those who watched and cheered were entertained by the precision routines of the ROTC Male and Female Fancy Drill, as well as the ROTC Color Guard and Drum Corps. Music and visual entertainment were also provided by the Tiger Marching Band, Tall Flag Team, and Drill Team.

Hard work and a great deal of extra time was put into the preparation and success of the '86 Homecoming Parade. Students who were members of Morse clubs and organizations, painted banners, made costumes, and put together very creative floats. Out of over twenty float entries, the I.S. float was awarded 1st Place, while 2nd and 3rd Places went to MESA and GQ respectively. However, everyone who rode, or marched in the parade deserved a round of applause! WAY TO GO, TIGERS!!!

During the week of October 20 to 24, Morse students had the chance to vote for the 1986 Homecoming Court. Over twenty students and staff members were seen wearing the royal blue and white Homecoming Court candidate ribbons. All were certainly hoping for the chance to walk across Tiger Stadium's football field during halftime at the Homecoming game and be introduced to the student body as the 1986 Homecoming Court representatives. Although final results were not posted until several days after voting, three Senior Attendants and three Senior Escorts had to wait until the Homecoming game to find out whether they were chosen to represent the court. When the time came for the annoucement of King and Queen, William Youngblood was named King, and Alumni Queen, Ruthy Harris, proudly passed the crown on to Varsity cheerleader and former Drill Team member, Denise Seaton. CONGRATULATIONS, DENISE AND WILLIAM!!!

Precious Moments 1986 . . .

On November 7, 1986 from 8:00 p.m. until midnight, Morse Tigers celebrated their 24th homecoming dance at the Cafe Del Rey Moro in Balboa Park. After an impressive parade showing and the Tiger victory over Sierra with a score of 28-7, tigers wined and dined to the beat of Odyssey; while others formed lines for photos taken by Shaffert's. As the hours passed, the 1986 Homecoming Court was introduced and the party roared on. Couple after couple hit the dance floor, while various shy tigers sat out and watched on with their dates. The night was definitely one of the most memorable nights tigers had this year . . . it was certainly a night of precious moments.

A GATHERING OF SPIRITS . . .

Spirit Week '86 was certainly a week to remember. Sunny days and spirited Tigers made the perfect combination for the different dress-up days and lunchtime activities carefully planned by ASB. Spirit Week unofficially began on Halloween, and students got a chance to show off their most outrageous costumes at the Best Costume Contest.

The official Spirit Week was filled with fun and laughs as students (and staff) dressed up according to each day and took part in the lunchtime activities.

Monday, Nov. 3-Hawaiian Surf Dress-Up/Sexy Legs Contest

Tuesday, Nov. 4-Stuffed Animal Day/Licorice Chew

Wednesday, Nov. 5-Sports Dress-Up

Thursday, Nov. 6-Twin Dress-Up/Music in the amphitheater

Friday, Nov. 7-Blue and Gold Day

The week was climaxed by the Homecoming Parade, followed by the football game in which the Tigers won 28-7, and the Homecoming Dance. Overall, those who took part in Spirit Week '86 had a week of unforgettable moments.

After the Bell . . .

At Morse the 2:40 bell usually marked the end of the day for most students and staff members. Off to home they left the Tiger campus to rest and take the day's load off-before starting homework. But to others the bell served only as a reminder to go to work, after school practice or meetings. In the parking lots the band, drill teams and JROTC units rehearsed for their performances-striving for perfection. While in the classes many teachers and staff members could be found in meetings. All three playing fields were occupied by various teams and athletes diligently practicing and sharpening up their skills for upcoming games. Yes, there is life after the bell rings.

Candidly Speaking

A "CLOSE UP" LOOK . . .

Although the word "school" does not bring the words "exciting," "fun," or "memorable" to mind, these words were mere descriptions of unique trips that occured during the year. For three "elite" groups of students, those who participated in the Close-Up trip to Washington, D.C., or those who represented Morse High in the Mock Trial Competition that took place in Sacramento, or the six Drill Team members who performed at the Superbowl game, a week out of school didn't necessarily mean fun and games. Plenty of preparation, such as candy sales, and other means of fund raisers went into the Close-Up trip and the Superbowl performance. Only the Mock Trial activity involved students specifically enrolled in the course, Student Court, while the other two were open to all students. The activities which took part in these trips were special, and educational in their own ways. To the students, the trips provided the incentive to strive for opportunities, as well as the chance to experience something absolutely "unique" and "out of the ordinary." These students gained more than new memories; they received the chance to prove to everyone that Morse Tigers are the BEST!

Below: What a sight . . . a picturesque look at the Capitol.

Below: Students who participated in the Close-Up trip to Washington, D.C., with advisor, Mrs. Bengston.

A week of workshops and conferences with senators, and there was still time to visit memorials and several tourist sites . . . these activities were part of the trip to Washington, D.C., a Close-Up Foundation sponsored activity offered to high school students. Those who participated were Lisa King, Lorna Mayo, Irene Soriano, Joy Agcongay, Tiffany Coleman, Etchell Cordero, Andrew Phong Le, Russel Manaois, and Lillian Willter. These students, chaperoned by ASB advisor, Mrs. Bengston, had the opportunity to meet other students from Los Angeles, Miami, South Carolina, and Arkansas. A major part of the trip involved workshops, where the students learned about the importance of foreign policy and international relations. Another highlight was Capitol Hill Day; the group visited senators and representatives, and even discussed current issues with Congressman Jim Bates. A visit to Washington wouldn't have been complete without a visit to the White House, in addition to the Washington Memorial and the Jefferson Memorial. The week ended with a final banquet and a dance, which gave the students a chance to bid their goodbyes to their new friends, and to the warm memories of Washington, D.C.

. . . AT LAWMAKERS IN "TRIAL" AND "SUPER" GIRLS

"It was the chance of a lifetime!" For six young ladies, all of whom were members of the Morse High Drill Team, this was the understatement of the year. Colonel Lynda Baquiran, Captains Sally Dumpit and Cathy Separa, and squad members Sally Cruz, Gilda Gamalong, and Maureen O'Connor were among the 500 performers at the Pre-Game Show of Superbowl XXI, held this year at the Rose Bowl in Pasadena. Never has this opportunity been offered to Morse students; it was a whole new experience. Accompanied by their advisor,Mr. Rollins, and his family, the group resided in Laguna Beach, for a week of practice at Orange Coast College, and sideline activities, such as a trip to Universal Studios where the close knit group participated in the Comedy Screen Test. The beaches nearby were an occasional hangout; the warm sun and picturesque view were perfect for picture taking. However, nothing compared to the thrill of being near celebrities, such as Neil Diamond, Tony Dow, Jerry Mathers, and Mike Love of the Beach Boys. The Superbowl experience was certainly a memorable one for these young ladies who represented the awesome Morse Tigers.

Upper left:Some participants of the Mock Trial Competition. Above:Morse Drill Team members with their new friends. Below:Superbowl Pre-Game Show participants relaxing at the beaches.

Ever dreamed of becoming a "defense attorney" or wonder what a "bailiff" did? An elective course that wasn't offered last year, "Student Court," enabled seventeen Morse students to not only learn these terms, but to apply what they've learned in class to actual courtroom situations. With practice, hard work, and concentration, the selected class of juniors and seniors, defeated their opponents with command and earned their right to represent the city of San Diego at the 1987 California State Mock Trial Competition Finals held at Sacramento. The following students participated:Lizabeth Alegre, Brad Andrews, Dena Cline, Curtis Crowder, Jeanette Davis, Patrick Fox, Michael Iritz, Mark Merris, Marjoel Montalbo, Sophie Neal, Karen Rawers, Prudence Rodriguez, Laura Schum, Milo Smith, Gina Suavengco, Jessica Wertlieb,and Richard York. During the week of competition, the motivated students, supervised and coached by their instructor, Mr. Law, competed against Berkeley High School of Alameda, and Monte Vista High School of Santa Cruz. Although the team of the "intellectual" Tigers received fourth place overall, each participating student deserved a warm CONGRATULATIONS, for an outstanding job!

ACADEMICS

The graduating class of 1987 topped last year's CAP scores, by an average of three points, in the areas of math, spelling, reading, and written expression. Budget cuts, however, prevented seniors from earning money which would have aided in paying expenses for class activities such as Senior Prom and Grad Night. This year sixteen students were chosen from Morse to participate in the city-wide science fair.

SPORTS

Boys' Varsity Baketball swept CIF with their win over Monte Vista while Tiger Wrestlers placed third in the eastern league. This was the best season they have had in five years. Girls also shared in the glory as the varsity volleyball team broke two school records and managed to earn a position in the playoffs for the first time. Female Cross Country finally defeated old rival Patrick Henry.

SPECIAL EVENTS

This year's travelling Tigers visited one of three very exciting places. Six lovely ladies performed in the Superbowl at Los Angeles, 18 students competed in Sacramento representing Morse in Mock Trial and 9 students flew to our nation's capitol to visit with California congressmen; some tigers were even lucky enough to meet with Representative Jim Bates.

ORGANIZATIONS

As the school year neared its end, new clubs, such as Fishing Club, supervised by Mr. Richard Smith, and Surfing Club, organized by "gnarly" surfers formed. An economics class taught by Mr. Bill Law, conducted a simulated business, under the company name, "M.A.F.I.A." Drill, Flags, and Letters, made Morse's debut in the movie, "Little Nikita".

MORSE "T.F.I."

1986-87 was a year for bold and eye-catching accessories, and "comebacks." The fashion leaders and trend setters displayed a wide array of "interesting" and sometimes "unusual" modes of dress. A big and somewhat surprising "comeback" was the "prairie look," where students wore anything country, from boots to cowgirl fringed blouses, a popular ensemble for the lady Tigers, who also often complemented their choice of clothing with cute, simple bows. While the tops basically were the same, the ever popular denim jeans (Guess,Levi's) and denim skirts topped off the "country" outfit. Speaking of denim, denim jackets were also a hit. Guys and girls alike enjoyed the look. Versatile, stylish, and fashionable were also knits. Students preferred knits for the comfortable feel and for the bold and dynamic colors. Oversized sweaters were commonly paired up with knit pants or skirts, in all sorts of shades and styles; perfect anytime. Another mode of dress was the "safari look"; (cont.)

(cont.) ;the look included safari printed shirts, off brown khaki shorts or pants, and open-toe flats. Still popular was the "shimmered image"-silky, shimmery blouses and pants, with "faux" jewelry, attractive brooches, and hoop earrings. Guys dressed up occasionally, often with a touch of "Miami Vice," or those looks more commonly seen in GQ magazine. Most students went for the California look-logo sweatshirts, printed tops, faded or two-tone jeans, jams, and Reebok's. Additional accessories included Guess and Esprit bags, watches, worn several at a time, and bows and banana clips to complement hair styles. Speaking of hair, brunettes and blonds were switching hair colors. Popular hair styles were "flat tops" and perms. With all the new fashions and trends, up-to-date Tigers proved their individuality and fashion instincts.

LOST WEEKENDS . . .

Seventy-eight days ... one thousand eight hundred seventy-two hours ... and what happened to them? WEEKENDS were simply defined as two days of free time — time to do whatever you wanted. Most students associated the weekends with parties and just the perfect time to be with friends. Some took advantage of the forty-eight hours to relax from the dread of school and homework. There were others who unfortunately were among the working forces that were chosen for these busy days. What about the rest? Some students, hard to believe as it may, took the time to carry their school work into the open doors of various public libraries, and studied diligently , hoping to get that long awaited "A".

The various assortment of students found at Morse provided the variety of activities that were observed in the local areas of San Diego. Among the most common "weekend things" were the theatres and shopping (continued on next page)

malls. On a Saturday afternoon, a walk around Plaza Bonita gave many opportunities for friends to bump into each other, and to catch up on things. 1986-87 was a year for movies — Top Gun, Aliens, Karate Kid II — and depending on the present cash flow, Tigers could be found in lines at Plaza Bonita, Pacific 6, and even at Chula Vista 6.

Although rainy days came as a surprise to some, beach goers alike couldn't have been held back by wild horses. Surfers, sunbathers, girl/boy watchers, and of course swimmers, headed for the sand and surf quite often and found plenty of things that kept them occupied.

Not everyone was a beach comber, so for those students, other amusements sights — Balboa Park, Seaport Village, and parks at local areas were the places to be. These places provided quiet and peaceful spots to busy Tigers who sought moments of silence, away from the hustle and bustle.

The "intellectuals" also had their own special hang out — the library, better known as the place to cram was often a hideaway for desperate Tigers. Whether or not there was homework to be done, a peek inside public libraries revealed a large mixture of Tigers — the "procrastinators", the "brains", and the "chitchatters". Indeed, libraries, although difficult to accept at times, were weekend spots and were among the thieves of time for those "LOST WEEKENDS".

A Heavy Load

"My back hurts . . . these books are too heavy!!!" Complaints like these were heard throughout the year as students were forced to deal with the "No Locker" situation. Due to storage problems, or the lack of it, most of the students attending Morse were surprised to find the metal doors of the hall lockers locked up on the first day of school. Even though, students with cars had an advantage, all students felt the same, "WE WANT OUR LOCKERS!!!"

JROTC Coronation

Friday, January 30, 1987 was a day that three young ladies will never forget. It was a very special and memorable occasion for them and the JROTC members. As the top-ranked Tigers rested at half time during the Morse vs. Point Loma Varsity Basketball game, the Junior Reserve Officers Training Corps Coronation commenced.

The excitement began when Lieutenant Colonel Reginald Regala gave his command, "Forward, March" and the distinguished Male Fancy Drill Team filed into the gym. On Regala's next command, the Fancy Drill Team arched their rifles and Queen Joyce Eucker escorted by Second Lieutenant John Arce, First Attendant Christine Caburao escorted by First Lieutenant Andrew Latimer, and Second Attendant Julie Bautista escorted by First Lieutenant John Alvarez were presented. The crown bearers handed crowns to the escorts and the escorts crowned the Queen and her attendants. Last year's queen, Anita Real was also present. The young ladies then each received a bouquet of flowers.

The court was selected in the beginning of the year by the JROTC Battalion. They were chosen for their superior qualities and their dedication to the Junior Reserve Officers Training Corps unit.

The ASB Sweetheart's Ball was held at the Sands Hotel at Clairemont, and although the limited dance floor space held back many of the two-somes who attended, energized Tigers rocked to the tunes provided by Mid City Productions. Students and staff alike dressed accordingly, from an "all out" tuxedo ensemble for the males, to sparkling evening gowns for their female counterparts. While the dance floor was occupied, long lines formed for those who wanted to capture the moment in photographs. The evening was briefly interrupted for the announcement of the Court. Gary Charlton was named King while Delia Clark was crowned Queen. There was something for everyone. Whether the couples dined, or danced the night away, or just spent a quiet evening at a cozy table, the Sweetheart's Ball meant an evening of special moments.

Future Leaders

With the execellent leadership from the A.S.B. freshmen officers, Laurice Newell and Cecil Cinco, the 1986-87 freshmen class of Morse High had proven to be a group of spirited, motivated, and not-too-timid Tigers! Their student involvement this year had made the freshmen class known throughout campus.

Under the supervision of Mrs. Huddleston, they had a successful fund-raiser and had presented a freshmen float at the Homecoming parade.

This year's freshmen officers did a good job of raising money for their next three years at Morse.

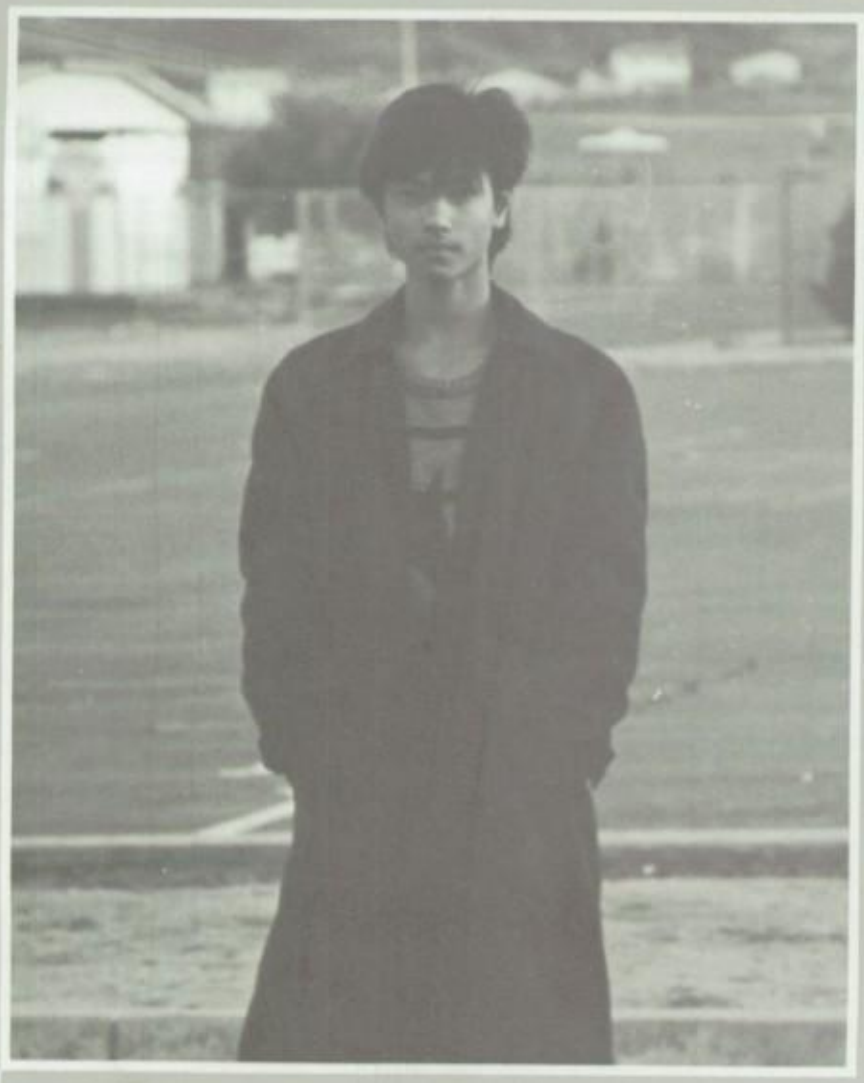
Tigers

Diana Miranda is a friendly and talented young lady with an ear for music. She used her great talent by playing in the Morse Marching Band.

Diana was born in Baja California and later moved to San Diego. "In Mexico, it was a tradition for every child to play an instrument," said Diana, "and so I choose the flute." She said it was hard to be in band because learning the music was time consuming. "I enjoyed being part of band because I liked to perform for others," she declared.

Diana's plan for the future includes attending San Diego State University and residing in Mexico as a prestigious doctor.

With Special Talents



Have you seen this attractive young man around campus? Meet Henry Eger, better known as "J.R." Before coming to Morse, he attended Bell Jr. High and declared "I wanted to do something different."

This past year J.R. was actively involved with the Tall Flags and Wrestling Teams. Although he enjoyed both activities, he preferred wrestling over flags. "I tried out for Tall Flags for fun one day and joined on accident," admitted J.R., "and I joined wrestling because I wanted to have that feeling of competing one on one." If and when he had spare time between homework and his tight schedule, he went out and had fun with his friends.

J.R. has proven to be a resposible and mature young man with lots of energy and a zest for life. We congratulate him for his many talents and wish him luck in the coming years.

Have you ever known anyone who learned algebra in the third grade? Meet Adam Rinehart, one of schools' bright Freshman students.

Adam orginally came to Morse to participate in the Magnet/Science program but instead, he enrolled in the Independant Studies program, "I.S. is pretty cool and challenging." His strong subjects are Math and Science, but admits his weak subjects are English and Social Studies.

His high standard of education can be traced all the way back to his pre-school years. When he was four years-old, he was in the Intermediate Baccalaureate Program "a sort of prep-school". Then in the fourth grade, he was identified as a Certified Gifted student and had enrolled in the Gifted And Talented Education program (G.A.T.E.) in Shermann Elementary School.

Freshmen Striving For The Very Best

"On your mark ... get set ... go ..." These words had always been familiar to Lucia Hisquierdo, a quiet, intelligent young lady with a promising future.

This past year Lucia was part of both the Cross-Country and Track teams. She started running with her mother at the age of nine. "When I first started out, I would run a 1/2 a mile to a mile a day," said Lucia, "but now I generally run two-three miles."

She had inherited her love for running from her father who happened to be a track athlete in high school. Interestingly enough, Mr. Hisquierdo had taught at Morse ten years ago as a soccer and history teacher. "My father encouraged me to attend Morse because of its excellent Cross-Country and Track teams," replied Lucia.

Class Of 1990

This year's freshmen class consists of well over 300 students coming from schools such as Keiller Middle School, Bell Jr. High, O'Farrell S.C.P.A., and Roosevelt Jr. High with the majority arriving from Keiller.

Most of the freshmen felt they were equally treated by other students, however, they all agreed that the worst treatment was from the seniors. "I'm proud of being a freshmen! They're just jealous 'cause they're not young," says Marie Harris.

Freshmen felt they received about the same amount of homework as they did in their previous jr. high or middle school and admit they feel "smarter" in classes with students in other grade levels.

The freshmen class has proven to themselves to be dedicated and enthusiastic tigers, anticipating a prosperous and fulfilling life.

The Spirited Sophomores

Sophistication of the Spirit

Spirit is defined in the dictionary as "A characteristic or prevailing feeling, attitude, motivation, quality, etc." But for sophomores, the word "spirit" is defined by a very sophisticated lady named Monica Wiggins. Many probably recognize Monica as the Sophomore class president. "I'm proud to represent sophomores. I feel sophomores are enthusiastic and have a lot of spirit," she said.

Not only did Monica represent the sophomores, but she was also in L.Q., MESA, and in the Honor Society.

She took Advanced Placement classes and was on the volleyball and track teams.

Monica enjoyed school and was excited about her future. Next year, she plans to begin her second year in A.S.B. hopefully as the Junior class representative. After High School, Monica hopes to attend U.C.L.A. to become a medical doctor. Judging from her current life status, this spirited and sophisticated young woman is definitely "out of the ordinary."

Mikie Likes It . . .

How often does a sophomore play first string quarterback? Well congratulate Michael Liera, #7, quarterback for varsity football. Before the first game, this talented athlete was pulled from j.v. to play varsity. Not only was he known for his quarterback skills, but Michael also played varsity baseball during his freshman year. After high school, Mike plans to attend USC. He intends to continue playing football in his upcoming years at Morse.

As a career, Mike plans to become involved with human relations. Whatever career Mike pursues, don't be surprised to see him a success. Good luck is extended for Mike as he continues his years as a Morse Tiger. Best wishes for success in the life and career he pursues.

Beginning a Career

Getting ahead in life is something people currently don't think about. But for Rose Nerona, it just started. Rose began her "out of the ordinary" start by teaching beginning piano.

"Piano is my number ONE hobby. I do it more than anything else." But that wasn't enough for her. Rose was also in Morse's IS program and Tall Flags.

After high school, Rose plans to be a pediatrician.

"It's the kids ... I love them," she states. Rose wasn't sure which college she wishes to attend, but surely nothing will stand in her way.

A Dream in Reality

Everyone has dreams. Some dream of being rich, while others dream of fame. Many say dreams are just exaggerations of reality. But for David Fai, it's like "a dream come true." David, #64, played second string center for varsity football. He started in J.V. and was moved to varsity before the first game.

"I felt scared when I first moved up," stated David.

David, however, conquered this feeling by showing the team and coaches what he could do. From the results of season, David had accomplished a difficult and "out of the ordinary" goal.

Super Bowl Stardom

Standing out in a crowd is an opportunity many want to experience. For Maureen O'Connor, the opportunity had finally arrived. Being on Drill Team, she was the only sophomore chosen from Morse to perform in the Super Bowl this season.

"I was excited, happy and especially LUCKY, but sad not everyone made it," she said.

Only six people on the Drill Team were chosen to perform for the audiences of this year's Super Bowl. This "out of the ordinary" experience is something no one will ever forget.

Changes . . .

VEEP-Voluntary Ethnic Enrollment Program was designed to bus students from certain San Diego areas to other schools. This year, however, many students were forced to go to schools in their residential areas due to the sudden changes in the program's boundaries. Special permits with a valid reason obtained from the Superintendent were the only way to be able to attend the school of the person's choice. This "out of the ordinary" change, effective throughout the county, seemed to focus on the sophomores because they were ones changing from Jr. High to High School.

We all knew that our Junior Class Officers consisted of Nancy Rabeles, Frederick Watts, Michelle Maxwell, and Terall Stewart. But most of us weren't aware of their responsibilities.

Nancy Rabeles was not only Junior Class President, but also Editor-in-Chief of the Morse Code. Unfortunately, throughout the year she didn't have much spare time for herself with two major jobs, yet she managed to handle both and still be successful.

Frederick Watts was not only Junior Class Vice-President but was also #24 on the J.V. Football team. He was also involved in GQ, Aerospace and Track.

Michelle Maxwell, Junior Class Secretary, was involved in ASB this year, which was one thing she had always wanted to do. She admitted that her job wasn't difficult at all because "The Class President does it all!"

Terall Stewart felt that being Junior Class Treasurer was very important to her because it was something she had ways wanted to get involved in. In the upcoming year she plans to serve on ASB again.

We congratulate the Junior Class Officers for a successful year and wish them the best in the future.

This past year Candy Apple spent most of her time at a skating rink. As a competitive skater, she skated a minimum of 19 hours a week in addition to competition. She was also the Layout/Design editor for the Morse Yearbook. She can be commended for her responsibility at this position, not very many juniors hold yearbook editorial positions.

Candy also excelled in academics. She was actively involved in Achieve, Advanced Placement, the California Scholarship Federation, Science Olympics, and Independent Studies programs. She has also earned various academic awards of excellence in English and French.

As a junior, Candy participated in Honors Seminars- a program designed to expose selected outstanding juniors and seniors to various ideas and possibilities for the future.

We congratulate Candy for her high achievements. Keep up the good work!

Ever since he was six years old, he had the habit of holding a pencil and drawing on whatever he could get his hands on. Some of us don't know who this person is, but then again those who do describe him as smart, funny, and goofey. "Who is this guy?" His name is Edward Maristela and he is not just "one of the guys." He has that artistic ability that very few people possess. He is so talented that he could be called the nest picasso. However this is one of Edward's many talents. He is also musically talented, which includes playing the guitar in his spare time.

As a very ambitious 16 year old, Edward was involved in school activities. He took AP classes to challenge his I.Q. As a result he was on the Honor Roll with a grade point average of 3.50. He enjoyed being a member of the Ski Club, surfing, and appeared to have potential in Wrestling. He also took part in the Aerospace program.

He plans to attend one of the UC Colleges and hopefully someday become an Aeronautical Engineer. Keep up the good work Edward!

Tilisha Marsh was the 1986-87 Homecoming Junior Attendant. She initially opposed the idea of being a nominee but her friends motivated her to stay in it, "If it wasn't for my friends, I wouldn't be the Junior Attendent." When she received the news she won, she was surprised and happy. If she is nominated again next year for Homecoming Queen she said she would stay with it.

Tilisha was involved in LQ, FHA-HERO, and Cheer Squad. She plans to try out for Captain of the Cheer Squad in her Senior Year. This year, although involved in so many activities, she managed to balance her tight schedule. Her plans include going to A&T University or Howard Business College.

Morse congratulates Talisha on her success, and wishes her the best of luck in the future!

These seniors are recognized as being among the top 20% of Morse's graduates. By mere coincidence 87 seniors were honored for the class of '87; 35 of whom were recognized with Academic Distinction (*). Each have maintained a GPA of 3.33; some earned Academic Distinction by maintaining a 3.50 GPA in their courses. In June these seniors graduate at the front of the class in white gowns, signifying their honor positions. Also, those with Academic Distinction wear a gold cord. Congratulations to these 87 very special students for being on top.

A HEAD START ON LIFE

With the new credit requirement beginning with the Class of 1987, many students who were originally planning to graduate early were unable to do so. Yet some students were able to accomplish their goal and graduate in January 1987. This year ten seniors were able to meet this goal.

Graduating at the semester required attending summer school in order to fulfill the required Government/Economics credits. During their first semester of senior year, these students took two English classes in order to meet English credits. We at Morse High wish these ambitious students the very best of luck in their early start for the future.

Morse High proudly presents . . .

The Graduating Class of 1987

Three years ago . . .

Monday, September 8, 1986 was "the last first day" of high school for Samuel F. B. Morse High School's 24th graduating Seniors, the Class of 1987. This years' graduates consisted of a diverse group of nationalities including Blacks, Asians, Mexicans and Americans making up one of Morses' largest senior classes with approximately 460 members.

Senior high . . . perhaps one of the most important and memorable time periods in each of our lives. Each event and each year is yet an added link in our chain of life. Think how different your life would be now had not something happened when it did. This was a time when the true meaning of friendship emerged. With friends for support each of us battled through many challenges of high school; now better prepared for our future as we step into the "real world".

Memories . . . that which can only exist again as long as it's remembered, treasured through photographs, treasured through The Key.

Seniors, this book, among your other momentos, signifies the ending of your high school career keep it among your memories, CONGRATULATIONS and "Remember when . . ."

Remember when . . .

. . . Morse seemed s-o-o big and now it often seems s-o-o small.
. . . Drill Team started growing with only 26 members.
. . . Breaking, G.I. Joe and bold flourescent colors were in.
. . . Mr. Kelner was one of our vice principals.
. . . you couldn't drive and first heard about "five-times" Simms.
. . . jellies and lace were in and a lunch combo was only .90.
. . . Mr. G, Mr. Hays and Mr. Wachs had beards.
. . . Madonna was a virgin and Duran Duran was five.
. . . the first ORIGINAL Cabbage Patch Kid was the biggest hit.
. . . you realized how hard it was to sell candy bars.
. . . Mr. Rollins made you learn "Mommy, IPMAT".
. . . and how (and often wonder why) you met your close friends.
. . . USA for Africa and Band-aid was formed.
. . . you couldn't wait to turn 18, now you have to wait until 21.
. . . Mr. Oden forced you to do a science project.
. . . you looked back only to realize how stupid you were.
. . . we had lockers then we didn't, so we started using backpacks.
. . . you got caught in the tardy sweep...again.
. . . Mrs. Schnaubelt and Mr. Young taught 10th ACHIEVE/AP English.
. . . you took a morning class, only to oversleep 75% of the time.
. . . you went to your first "real" semi-formal/formal dance.
. . . Michael Jackson and Bruce Springstein were in.
. . . the Star Wars saga continued with Return of the Jedi.
. . . Padres went to the World Series and California Lottery began.
. . . Senorita Berrato became Senora Gonzales.
. . . you first watched JROTC units perform and were impressed.
. . . "Uncle Bob's" I.S. "cube room" existed.
. . . Horton Plaza opened and GUESS, Swatch and Esprit came in.
. . . President Ronald Reagan was elected for a second term.
. . . you first noticed most of your friends began wearing glasses.
. . . you realized the importance of class credits.
. . . High School graduation was only a dream.

From the past, to the future . . .

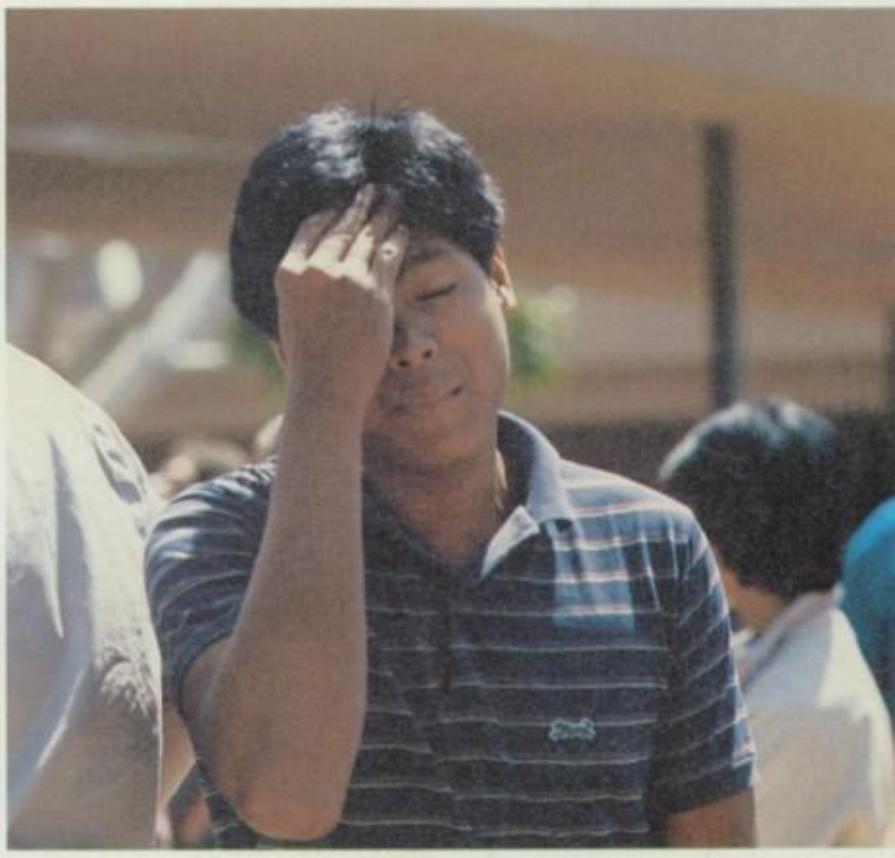
Seniors Earn More Credits

"More credits???" Everyone said the Class of 1987 would be 'anything but ordinary', but *more* Credits? Starting with the Class of 1987, the credit requirement was raised from 42 to 44 credits. This posed a possible problem to students without enough credits to meet graduation requirements.

The new credit requirement called for an additional two credits per year in math and science; changing requirements to three years of math and two years of science. Although this called for more studying and maybe an additional required class, some seniors still found time for the 'easier' classes. But seniors asked,"What about the Class of 2000, how many credits will they be required to earn?" Will raising credit requirements to graduate change students' study habits to a more disciplined one or will it stop those who are naturally underachievers from graduating? Unfortunately, this question will have to remain unanswered for a few more years, but hopefully it will encourage students to study a little bit harder.

Although the credit requirements did increase, Morse's Senior Class of 1987 graduated with pride knowing they accomplished more than previous graduating classes.



Cisco Noguera,"Oh no, *another* year of math???"

Amazing Senior

On June 7, 1986 at Preble Field, Naval Training Center, San Diego, the Battalion Staff of 1986-87 for Samuel F.B. Morse High School's Junior Officers' Training Corps was announced. Amongst the fortunate seven, one cadet stood out above the rest, Tamara Abney. Tammy had the proud honor of being the first female Battalion Commander in the history of Morse.

Tammy's life in J.R.O.T.C. began at the Bell Junior High Articulation Day when she and her friends, impressed by the various teams' performances, decided to join. From that day, she has been an active member of the organization. She was a member of the Female Fancy Drill Team for two years, Varsity, Junior Varsity, and Female Rifle Teams, competed in Best Drilled Platoon, presented the Female Color Guard during competitions, and was First Attendent in the J.R.O.T.C. Court.

Outside of Tammy's interests in J.R.O.T.C., she was a member of Achieve, the Speech/Debate Team, and had AP/honor courses. She also worked at Kentucky Fried Chicken outside of school.

We congratulate Tamara Abney for being the first female Battalion Commander of Morse High School and for all her other accomplishments we say, "OOHRAH!!!"

Don't Forget The Teachers

When looking back to high school years, probably the first memories will be of friends and some of the fun times shared. Next thought that might come to mind are of several teachers, teachers that either passed, failed, or if you were lucky, let you slide by. It's hard to forget a favorite teacher- the one who allowed eating in class, nor does one forget their worst who kept you after school for being tardy.

Little do we realize, teachers are the most influential to us during the first eighteen years of our lives- the years most crucial to our future. During this time we try to gain as much knowledge as possible since this is beneficial to our future. So when teachers slapped our hands when we were bad or gave us a good grade when we earned it, now we can look back in a different point of view and realize they were just preparing us for the "real" world. Think about this,"During your high school years at Morse, which teacher will you always remember and why?" these are a few teachers the Seniors aren't going to forget:

"Mr. Sims, he made me laugh,"- Marvin Mizell.

"Mr. Giardinia, we accomplished a lot in his class,"-Charles Gonzales.

"Mr. Keith, his class was a lot of fun,"- Dina Sinsay.

"Mr. Oden, he was the only teacher who I could talk to as a friend,"- Markoh King.

"Mr. Lunsford, he influenced me greatly,"- John Bajic.

"Mr. Law, he is funny and . . . a good teacher,"- Jessica Wertlieb.

"Coach MacDonald, he's my friend as well as my teacher,"- Etchell Cordero.

Mr. Stathas, someone we all liked to see.

Seniors had a lot of worries and responsibilities this past year, such as preparing for college entrance tests, applying to colleges, making sure they had enough credits to graduate, keep grades up and maintain good study habits.

Many seniors also participated in extracirricular activities including ROTC, various Drill Teams, and sports such as football, tennis oi track. The various after school activities offered at Morse required at least one to two hours of after school practice. So some students couldn't always go straight home after school because of practice session and games, unfortunately this shortened homework time.

At Morse, participating students must maintain a required grade point average of at least 2.0. But what happens when that student has an important game against a team before a major academic test? Clearly there are two choices. Either they stay up all night and study their brains out or don't play the game- most people would prefer playing in the game and having heavy eyelids the next day. Or maybe they got enough sleep but didn't study because they were too exhausted. One thing for sure, the majority of the time when this happens test grade are not something to be bragged about.

I'm a Senior?

In the last year of high school seniors have to stop to make important decisions and go through many changes in their lives. It is scary to think,"I'm a senior now." For some of us this means that this is our last year of school and for others it is just a base for college.

Now is the time to ask ourselves what we are going to do with our lives. Perhaps you want to be a football star or maybe a basketball player. Or maybe you want to be a doctor or a school teacher. Now is the time to make that decision.

As Whitney Housten sang, "If I fail, if I succeed, at least I'll live as I believe . . ." It is important that you live as you believe. If you decide to be a lawyer because you mother wants you to and twenty years down the road you decide that you want to do something else, you're only hurting yourself and losing crucial years of your life.

This is the year we realize, "I'm an adult now." We are the future. We are a role model for future generations.

We asked the graduating class how they would describe themselves as a senior:

"I would describe myself as a senior trying to make her last year in high school memorable and not wanting to end it," said Ann Oldenberg.

"I would describe myself not as a freshmen, sophmore, or junior, so it must be a senior (I feel that I'm older now)," said Ener Beltran.

Michael Bagnas describes himself, "as nervous, relieved, nostalgic and too old."

Roberto Alvarez said he would describe himself as, "a person who can give examples to others."

Senior Lawn Dedication

October 28, 1986 was the Class of 1987's Senior Lawn Dedication Day. This traditional event gathers the seniors during the lunch break, giving them a chance to dance and talk. Mobile Sound provided the music as the beat echoed through the hallways. Many spectators gathered around the roped off area to watch the seniors show off their latest dance steps and have fun.

With the blaring music and people yelling over one another, fifth period was hard to get through as deaf seniors slowly recovered from hearing loss.

This was only one of the traditional activities that the seniors encountered this past year. More people attended this year's Dedication than last and this shows that our Tigers are getting more involved and showing off their true school spirit. Although senior year is perhaps the hardest year of high school, seniors manage to keep up with school spirit and keep up their grades.

Hopefully, future graduating classes will continue to show their school spirit as the Class of 87 has, as Senior Lawn Dedication Day will be remembered for many years.

We Can Succeed

Senior year may be considered to be the most important year in high school. This is a time for making big decisions; decisions that are essential to shape the future. Are you going to college? Where will you go to college? Maybe get married? Where will you live? At home, apartment? These are just a few choices which must be answered and considered.

It is important that one puts his foot flat on the ground. Contrary to what the majority of seniors believe, they must do their best this year. Unfortunately, some students catch an almost unavoidable disease known as 'senioritis'. It becomes as contagious as the common cold. The symptoms are usually in the air toward the beginning of the second semester.

The symptoms include slacking off on the time spent studying, doing homework, and even accumulating truancies.

There are many different causes for this dreaded disease. Perhaps it could be that seniors look forward to activities. Special nights like Prom and Grad Nite usually have been on their minds for such a long time that they tend to forget their priorities, namely studying and keeping up their grades.

A cure for senioritis is still to be found but often a little push in the right direction may be all it takes to get the individual back on the right track.

Senior Fun

Friday, October 3, 1986, was the first official Senior Activity Day for the graduating Class of 1987. From four 'o' clock to seven in the evening over 100 Morse seniors enjoyed three hours of unlimited attractions at the La Mesa Family Fun Center. Enthusiasm was in the air as Seniors boarded the famous yellow school bus. Despite the everyday rush hour traffic, in twenty short minutes they arrived at their destiny, ready to be set free to explore the realms of the amusement center. There was only one objective in mind-to have fun!

This was an evening participating seniors will remember, it signified the start of their senior activities. They enjoyed themselves with the fun filled activities, including bumper boats, go-carts, water slides and four different courses of miniture golf. Some even played video games in the various arcade centers located throughout the center. These Tigers showed they could have a good time! The typical Fall evening was chilly but some seniors challenged the water slides as though it were summer time. Many splashed around, becoming soaked on the most popular attraction-the bumper boats.

As the seven 'o' clock hour approached the Seniors reluctantly boarded the bus for their return to Morse. Although their time at the amusement park ended their spirit didn't stop. The excitement and vigor continued on the bus ride back. Although the majority of the Tigers were cold and wet senior class members kept themselves excited by singing songs from some of the popular TV show theme songs and screaming cheers learned from the Cheerleaders.

Many of the Seniors proved themselves in spirit by participating in this activity. This was surely an unforegettable trip for an anything but ordinary evening.

The Wheel To Freedom

"Did you get your driver's license yet? After a semester of Health and Drivers Education was completed this was a question familiar to most ears. Typically sophomores took the Health and Drivers Ed course. Although some students started driving as sophomores the majority of Morses' drivers were part of the senior class.

Driving is a big responsibility and it is why you must get a driving permit before you can legally drive.

In order to get a driver's license an individual must first have had formal classroom instruction. This requirement may be satisfied through Morses' Health and Driver's Ed course or through a private driving agency. At Morse this course is offered as a semester course.

After having received a pink slip from classroom instruction the individual is required to receive six hours of behind-the-wheel training. This is usually done through a private driving agency since this program is not offered at Morse. The cost may range from eighty to one-hundred and seventy dollars, it is best if you shop around for the best prices. When this is completed an orange slip of paper is given to the individual verifying the completion of six hours of practical behind the wheel training.

Next is a visit to the DMV (Department of Motor Vehicles). A ten dollar fee is required and a written driving test must be successfully completed to obtain the learning permit. Successful completion of the test requires the individual miss no more than six questions.

After driving for at least thirty hours with an adult over 25, an appointment must be made at DMV for a practical driving test. If you score seventy or above, you pass. The individuals picture is taken, index finger inked and you receive the license in the mail in about six weeks.

There are many things that a car allows one to do and thus the possibilities are limitless. When you think back to what it was like to walk to school, the realization of the wheel of freedom fits nicely into place.

Our Pres . . .

Marjorie Rodriguez was the ASB Senior Class President for the 1986-87 school year. Her first goal for the year included getting the seniors involved in more activities. ASB wanted more student input so Senior Committees were formed. Each committee, Prom, Grad Nite, Cap/Gown, Sr. T-shirt, Sr. Luncheon and Sr. Homecoming Float, was involved with the preparations of each activity.

Her contributions to the school were enhanced by her dedication to presidency, motivation to achieve, and determination to get things done.

Her words of advice to future officers were to keep open communication with students, plan ahead, seek help if you need it, and take pride in your work.

MARCHING WITH THE BEAT

This year's 1986-87 Tiger Marching Band has considerably and notably grown this year. Led by the newly appointed drum major, Osmundo Villegas, the 32 member marching band demonstrated their musical talents as they showed off a lot of tiger pride while providing the music for the other subunits of the Tiger Marching Unit. The year provided many opportunities for the "new" band. With the aid of their new band director, Mr. Hollowell, the band strutted in several parades, such as Columbus Day Parade, and several Christmas parades, namely those which took place at La Jolla and Pacific Beach.

With the addition of the Twirl Flags, the Letterettes Team has also increased its membership. With leadership coming from Captains Liberty Trajano and Maria Gonzales, the Letterettes proved that a small squad can be just as spirited and loud as a large squad. Hard work and cooperation were necessities for this squad since one half of the squad had to learn to maneuver the difficult twirl flags, while the other half learned the basics of doing routines with the letters. Twirling the small flags may look easy but the young ladies just made it look easy. Hours of daily practice, before and after school created the illusion it was easy. But if you watch closely, the routines are not just hop, skip, jump and twirl. And many may think there's nothing to holding a tiger paw. Easier said than done, since thirteen girls were required at times to carry the letters which spelled "MORSE TIGERS." With the versatility that these dedicated Tigerettes had, they were involved in several parades and competitions along with band, flags and drill.

WE'VE GOT IT!!!

After most of the cars had left the parking lot, the words "WE'VE GOT IT!!" were heard echoing across the campus. These words originated from the Morse High School Drill Team and Tall Flags as they executed one of their precision routines.

Drill Team, along with Tall Flags, served many purposes to our student life. They provided us with entertainment during sports half-times. While representing Morse during parades and competitions, they also served as promoters of school spirit.

With the addition of of male performers, Tall Flags proved to be at their best this year. Morse Tall Flags consisted of 16 members, Managers' Michelle Castrence, Michelle Salazar, Jessica Baker, and Joy Sprague, and were led by Colonel Perla Soliven and Captains' Michelle Caramat and Jessica Miller.

The Tigerette Drill Team consisted of 41 members, Managers' Cheryl Castrence and Donna Sweat, and were led by Colonel Lynda Baquiran and Captains' Stacey Baraoidan, Sally Dumpit, and Cathy Separa.

Two main elements were found among the members of the Drill Team and Tall Flags: hardwork and fun. Both of these factors were shown at their high leveled performances. Because they continued at their course, We at Morse High School truly have said, "WE'VE GOT IT!!!"

Cheering Us On

"We don't need no Music, we don't need no Band, all we need are Tigers, Jamin' in the Stands." This was one of the many cheers you heard from the Varsity and Junior Varsity Cheerleaders of Morse High School.

Varsity Cheerleaders consisted of thirteen motivated members and were led by Captain Denise 'Neicy' Seaton. Junior Varsity consisted of ten spirited members and were led by Laurice Newell; and they were both under the supervision of Advsior Ms. Sue Walters.

These were the young ladies who were out there shaking their skirts for their team,, and getting the crowd fired up. These girls were always ready for action and were very serious about their job, which was to cheer the Mighty Tigers to Victory.

BLUE, GOLD, AND WHITE!

Have you ever been at a game and heard some cheering in the stands? If you have, you've heard the spirited Morse High School Pep Squad. The Pep Squad was a group of spirited students who showed off their special spirit at pep rallies and games.

Why Pep Squad as a name? Well, Pep means "ready for action" and these Tigers were always in action. Pep Squad had come a long way since last year. This years squad had about 75 members, 30 more than the previous year, and they all loved what they did. They were proud of their success, and with our help and participation next year they can be even stronger.

The next time you hear cheering in the stands, you'll know it's the Morse High School Tiger Pep Squad showing off their special spirit in their own special way.

Walking around Morse Campus groups of young men and women were visible wearing black, gray, and white; we were placed in a state of awe. Some said, "Who are those uniformed men and women?" And others just noticed without words.

These young men and women were showing off their Gentlemen and Lady Qualities also known as GQ and LQ. GQ and LQ were known to be one of the hottest groups around the campus. They stood for leadership and that's the quality they showed off. To be part of this respected organization, a member must have maintained a grade point average of 2.5 scholastic and citzenship. Under the leadership of Advisor Mr. Triplett (GQ) and Mr. West (LQ), GQ and LQ have been the official hosts of Morse High School's Open Houses. They've also tutored at the Encanto Boys Club, and within the organization they honored their certificated and classified employees every month.

So when you're reminiscing about the good old days, don't forget about these young men in G.Q. and how handsome they looked showing off their Gentleman Qualities.

ASB. What do these letters stand for? Well, they stand for Associated Student Body. This year's ASB President was Tiffany Coleman. In this position, she made sure the other ASB Officers did their jobs.

But, what does ASB do? They attend leadership classes and work with fellow officers on committees. Also, they tutor and counsel children from our neighboring elementary school-Fulton. When you hold an ASB office you must work in the Student Store once a week and help organize school dances and lunch time activities. Also, you must work with the Commissioner of Elections to help count ballots from the different elections held throughout the year. This year's advisor, Mrs. Anne Bengston, feels they had a very successful year and is indeed proud of the ASB Officers for the year 1986-87.

IDEAS BEC

If life means meeting deadlines by coming to school on Saturdays, sacrificing lunch periods, and staying up all night, then Yearbook Staffers of Morse High School have experienced life to its fullest.

With over 1,500 blocks of copy, Copy Editor Gerarda Pagsolingan ended up with eye strain as well as Photography Editor Arlene Reyes, who had experienced the challenge of viewing over 4,000 photographs which went into the book. Editing the layouts (pages) for consistency was given to Layout Editor Candace Apple, while Advisor Mr. Barton Hays had the responsibility to the final editing before the pages were sent to Jostens Publishing Plant in Visalia, California.

Fortunately, typing the articles for the book was made easy with the use of "Auto Copy." ("Auto Copy" was a computer program which allowed the staff to type all the copy on the computer, which made editing convenient).

With six returning members (the three editors, Odilon Delafuente, Flora Galamgam, and Darlene Perry) and two members of Bell Junior High School's 1985-86 Staff (Almar Reyes and Cynthia Ruiz) training the 18 new staff members was an experience the eight students will never forget.

Confusion, panic, and hysteria were common during deadlines, but the "Anything But Ordinary" Staff, with their Ideas, were motivated enough to make this book Become Reality.

ACHIEVE IN

ACHIEVE was the largest academic organization on the Tiger Campus this year. This program was designed for academically motivated students who accelerated in English, Math, Social Studies, and Biology. Students had to maintain a "C" average in scholastics and an "S" in citizenship. ACHIEVE enhanced and encouraged the development of independent thinking through indepth studies.

ACADEMIC DECATHALON. (LtoR): Bernard dela Cruz, John Bajic, Milo Smith, Russell Manaois, Keith Maggert, Andrew Phong Le. Not photographed: Roger Bradley and Gina Suavengco.

The Academic Decathalon, led by Advisor Mr. Gary Oden, was a county-wide competition, where a series of six tests were given to the students of different schools, to evaluate their over-all knowledge in a variety of subjects.

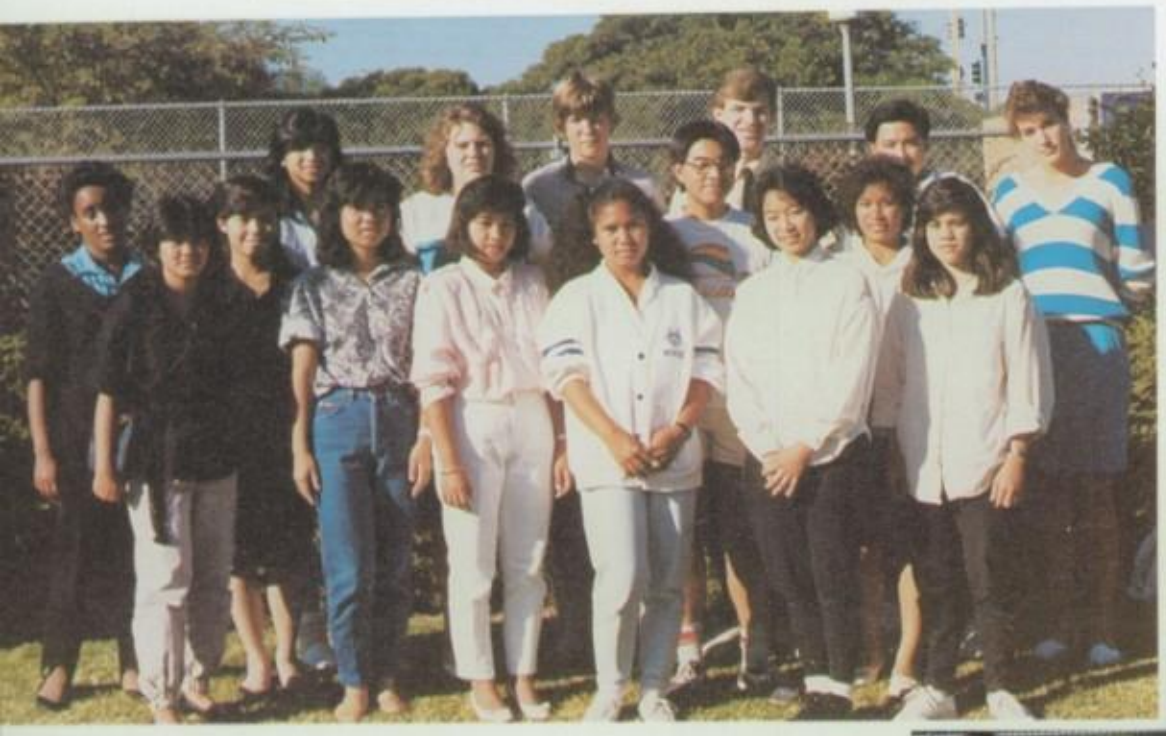
The team consisted of eight members, who all studied hard in order to do well at the competitions.

HONOR SEMINAR STUDENTS. (LtoR): Jessica Wertlieb, Keith Maggert, Candace Apple, Andrew Phong Le.

This years Honor Seminar students were Seniors Jessica Wertlieb and Andrew Phong Le and Juniors Candace Apple and Keith Maggert. To be accepted in this program, a student (must be a Sophomore) submits an application, attends an interview, and waits for a response. Two sophomores, each year, are accepted from each high school in San Diego.

The Honor Seminars furthered the students knowledge in many fields, such as creative writing, photography, and the opera. In this program, the four students had the opportunity to meet new people and make new friends.

High Achievers



California Scholarship Federation or CSF, is a statewide organization which recognizes and promotes excellence in academic achievement for those who have maintained a minimum of three A's and one B in academic classes.

Eligibility is based on an application which includes a copy of their report card to advisor Mr. Bob Wachs who then converts the grades to points-three points for an "A" and one point for a "B". The points must equal a total of ten to qualify. If a student has been a member for three out of six semesters of their high school career, they are automatically a Sealbearer and lifetime member.

We honor the students of CSF and congratulate those who have become Sealbearers.

During the school year they had enriching experiences in and out of school. Psychiatrists, hand-writing analysts, authors, and actors were among the several guest speakers who enlightened the members of IS.

Being actively involved with other school activities, they've entered a float into the Homecoming parade every year and this year they placed first.

To join a student must first fill out an application. Selection is based on IQ test scores, self-motivation, grades, a personal interview, and broad interests. Once accepted they aren't afraid to be different from the flow.

Calculus With Geoff and Dave.

Calculus with Geoff and Dave was a club devoted to eradicating Calculus problems wherever they may cross us. Membership only requires that at some point in your life you have or will take a Calculus class. Only those who have experienced an actual course will know the sheet evil of such problems- All the more reason to eradicate them.

Morse High Calculus students were lucky to have them around to help with those problems and we say, "Thanks!"

The Societe Honoraire de Francais, a club comprised of students who were studying French in the second level or higher, was an organization which had been active at Morse for several years. However, due to requirements membership started at a very low number. Nevertheless, the club, led by advisor Mme. Elizabeth Anthony and officers who are designated at the beginning of the school year,offered a wide range of purposes, both to the school and its students. Not only did the organization attempt to stimulate interest in the study of French, but it also promoted higher standards of scholarship. To be considered eligible for membership, a student in tenth, eleventh, or twelfth grade must be enrolled in Level II French or higher, in which he/she must have maintained an "A" during the semester of selection. In addition, he/she must also have maintained a cumulative "B" average in the other classes except French. Many rewards were offered to students who qualified for membership. The students learned about the French culture as well as the language, but more importantly, the students had the opportunity to apply the French language in a wide variety of fun activities, as they participated in the Societe Honoraire de Francais.

Extra! Extra! Read all about it! Keeping the students of Morse High School informed on school and community events was the responsibility given to the Tiger Newspaper Staff. With the guidance of Advisor Mrs. Dolores Moorehead and Editor-in-Chief Nancy Rabelas, the Tiger Staff produced an informative newspaper. The newspaper gave students the opportunity to express their opinions and use creative expression. Hard-work, determination, and a talented array of individuals made it possible for the Staff to meet their deadlines and publish the monthly newspaper-The Morse Code.

Led by Advisor Mrs. Sue Walters, Future Homemakers of America got off to an excellent start. With the help of their new President Tammy Jennett, they overcame stumbling blocks unknown to many students at the school. They entered competitions and came out very successfully.

There were sixteen members who participated in FHA/HERO this year. FHA/HERO was responsible for hosting and supplying food for special events, such as Open House, PTSA meetings, and the Senior Annual Signing Party. They also made cakes every month for the teachers having birthdays that month.

The members this year felt that they had a wonderful year and they were very proud of themselves.

TIGER SITTERS

HUNGRY TIGER

Many times during the year, we've seen students, like us, walk around with blue aprons. Who are these kids you ask? These people were members of our very special program known as the Hungry Tiger. On campus, they learned and practiced how to cater, serve, and cook food by setting up and running an actual business- our own restaurant here on campus. Morse High was very proud of this program, because of the satisfaction it gave to all our Hungry Tigers.

As we looked across our parking lot, we saw a small building with a sign on it that said ROP CHILD DEVELOPMENT. The students enrolled in this program received first hand experience in child care. Daily, children under the age of seven came in to receive proper care from these trained and experienced Morse students. And who ever said Tigers were ferocious.

Student Court is a class in which students played the roles of attorneys. The students argued cases that had already been decided in order to understand the different aspects of law. They had one competition this past year in which representative groups from a number of San Diego Schools met and argued a very difficult case; Smith vs. Cornell.

The case invloved the defense of a man, Cornell, on the grounds of self defense, however, there were many other factors involved. Factors such as the Treaty of Guadalupe Hildalgo, the Mexican-American War and racial predjudice made this a very complicated case.

The students in the class were all able to break a problem down and look at each of its components separately in order to solve them. This was not only useful in the Student Court, but it has prepared them for tasks which may challenge them in the future.

It is said that "the pen is mightier than the sword." If this applies to the spoken word as well as the written, than who better to call on than Morse High's very own Speech and Debate Team.

Advisor Mr. Lanny Boddy said, "This years team was a good one." The Speech and Debate Team consisted of fourteen students who specialized in the art of speaking. Judging in competitions were based on a person's diction, language, expression, and eye contact with the audience and the overall speech itself.

Students who like to talk and debate should join the team to make Morse the best Speech and Debate Team around.

Students in the Magnet Program have the opportunity to participate in two different programs: Aeronautics and Engineering and/or Computer, Mathematics, and Science.

Samuel F.B. Morse is the only high school in the nation that allows a student (with three years of Aeronautics training) to obtain their pilots license. Offered together with Aeronautics was Aviation Technology, where students built a plane.

Students at Morse High had the opportunity to take Advanced classes in Mathematics, Science, and Computers. Some classes offered at Morse were: Pre-Calculus, Calculus (college course and credit), Computer Science (BASIC Programming), Computer Language (Introductory Course in Pascal Programming), Advanced Placement Computer Science (Advanced Course in Pascal Programming), and Computer Repairs (where students fix AppleII computers).

Students of Morse High School were fortunate to have the Magnet Program established at this school and we hope that the program stays for the future generations to come.

Mathematics, Engineering, Science Achievement (MESA) was designed to increase the numbers of underrepresented ethnic groups in professions related to mathematics, engineering, and the physical scienes. MESA was targeted to students from Black, Chicano, Mexican-American, Puerto Rican, and Native American backgrounds.

Some of MESA's goals were to encourage students to acquire the academic skills needed to major in certain sciences at the university level and to promote career awareness so participating students would learn of opportunities in the math and science-related professions early enough to prepare for them.

The students of Morse High School were fortunate to have MESA on their campus and hopefully it will strive to establish educational programms so many minority students can prepare for their careers in mathematics, engineering, and physical sciences.

Competing For The Top

National Merit Scholar-a big title to live up to. Yet, three seniors from Morse made it to the semi-finals: Tamsin Barker, Charles Gonzales, and Geoffery Howell.

To qualify to be a semi-finalist, a test called the PSAT was taken by each person in the 11th grade. Semi-finalists were selected according to an index. From this index, only those with the highest scores were eligible for the semi-finals. They then go into competition for the finals. Those that made it to the finals, receive scholarships from corporations that sponsor the test.

"It (National Merit Scholar) is very prestigious because only a few from the entire nation are selected," says Mr. Lunsford.

We would like to congratulate these 3 semi-finalists and hope that they make it to the finals.

What operated like a game show-asking questions similar to Jeopardy!-and traveled from school to school? Why, the Morse Academic League!

The Morse Academic League separated into 2 teams-the Varsity and J.V. teams. Each team had a captain. Varsity team captain Keith Maggert, and J.V. team captain Marites Sanicolas. These 2 acted somewhat like the assistant coaches under the head coach, Mr. Oden.

During game play, the team sent 5 people at a time (including the captain) to answer questions against an opposing team. Questions are asked by a mediator and to answer a team member must ring in using a "buzzer." After each correct answer (worth 3 points) a bonus question, worth 5 points is given.

"It's good fun, because it's like Trivial Pursuit!" exclaims Brad Shaffer. "And the fun comes from answering the questions correctly and knowing you knew the answer!" comments Cyril Grospe.

Fun, excitement, buzzers, questions and answers-all the makings of a good game show-along with the hard work of a school team. "It's exciting because it exercises our intelligence, like brain push-ups!" says Robby Huckell. An out of the ordinary comment from these out of the ordinary teams.

PRINCIPALLY SPEAKING

Morse High School is under the direction of Principal Virgin Foster. She has been at Morse since 1982. She likes the sta and the students at Morse, and has high expectations for th year '86-'87.

"Academic achievement and self-esteem are the maj areas of focus for Morse High School during the 1986-87 scho year. Staff and students continue to work for high levels achievement. Administrative Helpers

Three extraordinary staff members who helped Morse's Administration were Mrs. Stokes, Mr. Sandoval, and Mr. Barnes.

Mr. Jesse Sandoval, the Administrative Assistant helped the Administration and also did other jobs. Mr. Sandoval was the supervisor of the T.A.'s (teacher's aides) and controlled the calendar for all the events going on at Morse.

Mrs. Jo Ann Stokes was the Resource Specialist. She helped Mrs. Foster, ran errands around school, kept tabs on most of the staff members, and even talked to students about college plans.

Mr. Vertis Barnes was the Community Relations Coordinator and supervisor for the PTSA (Parent/Teacher Student Association). He made sure all the meetings ran smoothly and were held on appropriate dates.

With the help of these three remarkable Administrative Assistants Mrs. Foster and the Vice Principals can accomplish the tasks required to keep a school functioning properly.

After working here for sixteen years this was the last year for Mr. Vertis Barnes, our Community Relations Advisor. He worked with the PTSA and coordinated public relations activities. Mr. Barnes' major individual project was a book for the school called "The Graduate-Coming of Age." This book includes the achievements of past graduates of Morse, including his two sons.

Mr. Barnes is also involved in activities outside the school. He is a member of The National Conference of Christians and Jews. This organization sponsors breakfast meetings between students from various schools to discuss different issues with guest speakers.

Mr. Barnes is sad to leave Morse. "When you've been here as long as I have, you're sad to go. In my book Morse is Number One!" We are sorry to see Mr. Barnes go. He will be remembered for all the wonderful things he's done for our school.

"Who cares?" The Morse counseling staff cares that's who. The counselors made large amounts of schedule changes, listened to students with problems, and gave advice when and where it was needed. The counselors talked to students about many things including grades, classes, and future plans. They were there to help with plans for careers and college plans.

When it came to counselors at Morse, they gave it their all and made sure that all their students had been taken care of. If there was a problem with a class or help was needed with your future plans, nine times out of ten, the counselors took the time to make sure the problems were figured out.

What was meant by the title, Language Arts? Language Arts was the department name for what was known as English, American Literature, or Reading Development. The Language Arts program put an emphasis on vocabulary during the '86-'87 school year. Mr. Keith, the Department Chairperson, agreed that increasing the students vocabulary will help them later in life.

Morse was one of the few high schools in San Diego to have offered German as a foreign language. In the year 86-87, the interest in foreign language had increased tremendously. You can be sure that Ms. Anthony, the Department Chairperson, was pleased with this.

ZOOM! You're off! This was the feeling many students in the Aviation/Aerospace program got to experience. The Aerospace Department taught students to fly, where the controls are in an airplane, what each one does, and how to use them properly. Students actually learned to fly planes and got their pilot permits in the course. Many students in the class got to do solo flights and had the wonderful feeling of accomplishment. The Department Chairperson John Shacklett, was very pleased with the development of this out of the ordinary program.

What made the Math Department at Morse so special? There were many answers to this question. Morse offered math courses that were very rare to other schools in San Diego. A few of these courses were pre-calculus, calculus, and discrete math. Another reason the Math Department was special was because Morse didn't have general math classes. So students that attended Morse had to have at least a higher level math class in order to be enrolled. Bob Cavaiola, the Department Chairperson was very pleased with the results of raising the requirements.

Get Busy With Social Studies

"What is Business Education?" A lot of people had the same question. The Business Education Department prepared students for the future. Some of the courses that were offered from this department were Typing, Accounting, and Office Training. They mainly taught you how to prepare for a job in an office, such as, secretarial work, receptionist, etc,. The Business Education Staff worked hard to teach the skills that students might need for future use. Tal Baker, Business Education Chairperson, should be proud of the fine job that the staff has done.

"I may look like I know what I'm doing. . . ." muses Mr. Llorens.

Why was Social Studies important? The Social Studies Department at Morse feels that they might have an answer to this question. The old saying goes, "Practice makes perfect." If we were taught what mistakes were made in the past, through courses such as, History, Geography, Economics, and Government, THEN maybe when our generation rules the world, the mistakes won't be repeated. This is the opinion of many of the members of the Social Studies Department, including Department Chairperson, Frank Norman.

Almost everyone in science classes enjoyed playing mad scientist. This year, new courses helped encourage this experimentation. The Science Department was glad to see the addition of Advanced Placement Biology and Physics, Experimental Design, Science Olympiad, and the widespread involvement in science projects. These new courses plus the traditional science classes, have expanded learning opportunities for students. With an increasing number of students, courses, and teachers, the Science Department helped Morse become extraordinary.

The members of the College Prep staff are all college professors that come in part time to teach Psychology, Cultural Anthropology, German, Political Science, and Calculus. Morse was proud to have such an out of the ordinary program.

The Art of it All

"What was industrial arts?" Well, Industrial Arts was a type of art that used machines. Some of the industrial art courses offered at Morse were: Graphic Arts, Metal Shop, and Auto Mechanics. These courses all take skill and responsibility. The Industrial Arts' courses also require safety, and the students, therefore, must take a safety test before actually using the machines. Mr. Rodriguez, the Department Chairperson, felt good about the Industrials Arts program, and he had a right to.

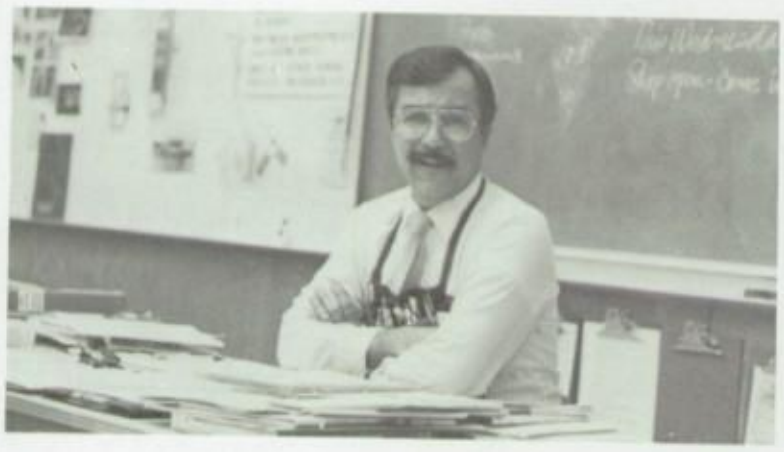
Almost every person knows what art is, or they think they do. Art isn't just a bunch of lines and colors thrown on a piece of paper. Art is a representative of an artist's imagination. Art is expressed sometimes by ideas or thoughts, but most of the time, art is a symbol of what a person is feeling inside.

Kay Carlin, the Art Department Chairperson, feels that everyone has some kind of artistic ability, but shows it in various ways. "Anybody who feels emotion, or has an imagination, can be an artist," states Mrs. Carlin.



"Do you really think you can take a picture better than me?" says the expert photographer, Mr. Rodriguez.

Where could I learn how to drive safely? Health and Driver's Ed. taught students about drug and alcohol abuse and the rules of the road. This course also made sure the rules it taught were safe and correct ones. Mr. Sims, the Department Chairperson, was glad this course was offered at Morse.

Ida Greene
Willie Fortenberry

"Who's there to help me if I'm sick?" This question is easily answered. Ida Greene, Morse's nurse, got many sick kids per day. She gave them medical attention, and sent them home or back to class. Mr. Fortenberry helped Mrs. Greene or took her place when she was absent. So if medical care was needed, people were there to help.

Ann Aydelotte
Kathy Kelly

Who offered help when it was needed in certain subjects? This was the job of the Basic Skills staff. The Basic Skills staff was a tutoring staff that gave help in courses such as Math and English when it was needed. The staff and students were glad to have such a great help on campus.

The Special Ed. Department, headed by Lois Chappell, was a unique program that worked with students needing time and additional help. The Special Ed. classes were usually small. The smaller class size was beneficial. It gave teachers and students a chance to work together on a one to one basis. It allowed the students more time to ask the questions they needed to ask. We can all take pride of the Special Ed Department for the fine job it's done.

"What subject do you take if you want to have a body like Mr. T.?" P.E. is, of course. Physical Education is designed for students to use their energy, have fun and become fit. Whether in P.E. or Athletics the results are the same: looking good, having fun and feeling great!

What was Consumer/Family Studies, anyway? Consumer Family Studies courses included Clothes Design, Gourmet Cooking, Nutrition, and Food Preperation. These classes taught how to plan and prepare balanced meals, set an elegant table, sew, and design clothes. The Consumer Family Studies Department had come a long way from just cooking and sewing. No doubt this department can be proud.

What course at Morse lets students yell in other students' faces? ROTC did. It taught students military discipline and promoted them to many levels, just like the armed forces does. If the students were serious about joining the military, then ROTC was the right course to take.

"Two Morse Teachers Retire"

Just exactly how long had this man been on Morse's campus? Well, Mr. Bill Zuidema had been here for eighteen full years. He taught Contemporary Literature and English during the '86-'87 school year.

Mr. Zuidema did some things around campus that were a mystery to most of us. A good example of this is the fact that he was the announcer for the Morse football games. Yes, Mr. Zuidema was the one in the booth calling out the plays and team members over the loud speaker. At one game, Mr. Zuidema yelled, "Hot dogs! Come get your Morse Hot Dogs!" every five minutes. By the time the game was over, everyone was tired of the words "hot dog."

Outside of school, Mr. Zuidema likes spending time with his family and zooming around on his motorcycle. He once crossed almost all of Mexico on this infamous motorcycle! This he is very proud of.

After leaving Morse, Mr. Zuidema planned to teach Psychology part-time in Wisconsin. Well Mr. Zuidema, whatever your dreams are, may all of them come true and best wishes to you for the future.

Mr. Zuidema poses for our Morse photographer.

Mr. Sims, looking good as Grand Marshall at the Homecoming Parade.

"Five times, five times, five times Sims." This is how Mo students referred to one of the best teachers of Morse's tim Mr.Nunnelly Sims was at Morse from 1962-1987. Yes, after years, Mr. Sims had decided to retire. He was here when Mo first opened. "When Morse first opened, there were abo 1500 students and we only had ninth thru elventh grad attending Morse. All the seniors went to Lincoln."

Mr. Sims was born in east Texas, but lived in San Diego sin 1935. He was in the military, so he got to travel a lot and s the world. Before he became a teacher, he worked in t post office and was a credit manager for Montgomery War

Mr. Sims started his teaching career here in San Diego Marshton Middle School. From there he went to Lincoln Hi School and stayed for a couple of years. Morse was open very shortly after this and Mr. Sims and 37 other faculty me bers were shifted from Lincoln to Morse with the entire ter grade student body. "Morse looked basically the same 1962 as it did in 1987. The only real difference was the addit of bungalows."

Mr. Sims was a teacher who was obviously very intellige He taught numerous different subjects. Some of the subje he taught were Sociology, American Government, U.S. His ry, Typing, Health and Safety, Driver's Training, ROTC, and Y and The Law. Mr. Sims enjoyed teaching Health and Drive Education the most but he also loved teaching ROTC. "RO took a lot of practice," said Mr. Sims, "It took up some of t extra time I had. It kept me busy."

Mr. Sims had been planning to retire since 1984, but was ready until 1987. Whatever Mr. Nunnelly Sims decides to do, is wished the best of luck by the students and staff of Mo High.

MRS TUCKER

Who was Mrs. Tucker? Mrs. Tucker a.k.a. "Ms. Bettie", was an assistant to Mr. Schilling in the Hungry Tiger. She helped Mr. Schilling in any way possible. She helped him with baking, choosing special menus, and deciding the grades of the students who work in the Hungry Tiger. Besides the help she did in the restaurant, Mrs. Tucker worked as a T.A. grading papers and tests, and recording test scores. With Mrs. Bettie Tucker's hard work she helped make Morse the special school that it is.

In The Beginning . . .

Autumn brings about many aspects of life. The leaves on the trees change their colors and the air becomes crisp and cool. On the Morse High Campus, Autumn is a significant symbol of the beginning of school, Spirit Week, Homecoming, and last, but not least, **Fall Sports**. Determination and spirit motivated the students to participate in **Football, Volleyball, Cross Country, Women's Tennis,** and **Field Hockey.**

The Morse Varsity Football Team began their season at Hawaii with a win against Konawaena High School. With fierce competition, Coaches' Mike Klepper, Bob Mendoza, Frank Norman, and John Shacklett held practices to improve and strengthen team, as well as individual, performance. It was evident that their hardwork and determination paid off as their season continued. Their playing brought in many victories including their win over Mira Mesa which brought them to the Eastern League play-offs against San Dieguito.

One exceptional member of the team stood out- Charles Fishero, Number 74, Defensive and Offensive Tackle. He earned many significant titles such as All Eastern League, Los Angeles Times All County, All CIF Team, and the Coaches Golden Football Award. Charles was acknowledged for his achievements at the Cooper Bowl.

Successful Season Till the End

The crowd seemed to rise all at once and howl for joy when the ball was caught by a Tiger receiver. The Blue and Gold pom-poms waved and fluttered as the cheering increased. They rythmic foot-stomping added to the energetic yells to heighten the morale of the team on the field. This was the way every Junior Varsity football game began at Morse High School.

Morse's 1986 Junior Varsity Football Team clinched the Eastern League title with an outstanding season of 7-2. Their success was due to the hardwork and determination of the team. After school practices designed by Coachs' Mark Monroe, Charles Brown, Len Arevalo, Ron Nollett, and Bob Smith pushed the teams efforts and strengthened the team performance. With spirits high, the team entered the season with a win over Mission Viejo and continued to bring in victory after victory. Their games continued to attract more and more enthusiastic Tiger fans to cheer them on to victory. This season was heightened by the outstanding play and character of the players. Their coordinated efforts contributed to a most enjoyable and successful season.

Runners Show Determination

"Aw, Coach, not the Lemon Run!!!" "It's too hot to run the South Bay!!!" These complaints, and many others, were constantly heard from the runners of the Morse High School Cross Country team. Cross Country practices were long and hard. Constant runs to the Lemon Grove "Lemon" on the corner of Broadway and Imperial or the South Bay Freeway Run (which had them running parallel to the freeway) were incorporated in these practices. Besides having to run the Lemon Run or the South Bay run, Varsity runners underwent treacherous eight mile runs every other week to strengthen their endurance and breathing techniques.

Pacing the season out, this years Cross Country team competed with great determination. Striving for success and neglecting injuries, the Varsity and Junior Varsity teams participated in many meets and invitationals, including the Mt. SAC Invitational (which was voted the countries hardest course) . Both teams improved steadily through the season. "Each runner made great progress in his/her efforts to become a better competitive runner," stated Coach MacDonald and Griswold. The highlight of the season was the girls first win over Patrick Henry.

Unsuccessful Season brings Experience

"Drive the ball! Dodge the enemy!" These were commonly heard phrases as this years Field Hockey team played with determination. The team, with only three returning members, began their season with high hopes of success.

Daily practices consisted of five laps around the upper field, two hours practicing the control and techniques of the stick and ball, and sprints. "Suicide!" Assistant Coach Cynthia Bagnas stated often. Suicides were a type of sprint the team encountered. They would sprint forward to the 50 yard line, backpaddle to the 25, forward to the 75, backpaddle to the 50, and forward to the endline. Then the team went back the same way. These sprints ended the long practices and the girls went home.

Although the team had long and hard practices, losses outweighed wins. Nevertheless, the team's confidence remained high. The season gave first year players valuable experience and hopefully next year the team will be more prepared and successful.

Girls Tennis Plans Ahead

This year's Women's Tennis Team was under the guidance and leadership of third year players' Co-Captains' Lizabeth Alegre and Prudence Rodriguez and Managers' Richie Almirol, Brian Bangalan, and Dean Ricario. The team, with six returning players, started their long hours of practice in the summer under the expertise coaching of Connie Phillips. Their daily workouts were held at Martin Luther King Recreation Center on Skyline Drive.

Long hours of practice included running "the hill" at Martin Luther King Recreation Center and exercises, which strengthened their endurance and tennis techniques and abilities. The exercises consisted of serving and returning (forehand, backhand, slicing, etc.) the ball to each other.

Although the outcome of their season was not as successful as they expected, the team's hopes were never diminished. "The team has promised to work harder when they come back in the fall," Coach Phillips stated. Next year, the Women's Tennis Team will be more prepared and successful.

Setting the Season for Playoffs

This year's Varsity Volleyball Team has "been the best volleyball team Morse has ever had," stated Coach Martha McCarthy. The team began their year with high hopes of having a successful season. But they did more than that. The team ended their season with a winning record of 19-6 and league play of 6-4. Varsity Volleyball placed second in the Eastern League made it to the first round of the playoffs, and dominated over Valhalla. "We had a tremendous offense, defense, and setting line," Coach McCarthy said. Out of the nine members on the team, six placed on the first or second Eastern League team or received honorable mention.

The team didn't receive these honors by wishing alone. They had a lot of practice. Practices lasted three hours every weekday. The team ran laps for endurance and exercised their serving, bumping, setting, and spiking skills.

Junior Varsity Volleyball didn't have as good a season as Varsity did. Junior Varsity ended their season with four wins, six losses. "Even though we had more losses than wins, the season was beneficial to the girls. Their experience will be an asset on the team next year," commented Coach Mary Collier-Wade.

Winter breezed in . . .

Our sunny San Diego weather seemed to halt as winter breezed in. Winter seemed like a disappointing season to some people, but to the students of Morse High School, it wasn't. Winter signaled the coming of Christmas, New Year's Eve, and Winter Sports. Outstanding Athletes participated in **Basketball, Wrestling,** and **Soccer**. Kickin' Off

The Men's Soccer Team was composed of spirited and hardworking young men. Practices, led by Coach Frank Norman, consisted of running, workouts, and basic soccer skills. The sixth period and afterschool practices improved and conditioned the players.

The Girl's Soccer Team was stronger than they ever had been. They had tiresome practices that consisted of drills and mini-scrimmage (a game with the offense vs. the defense). The hardest thing about practices were the different types of sprints they did.

Coach Mary Collier-Wade was the driving force of the team. "Coach Wade was an excellent Coach who kept the players going during the bad times, as well as the good," stated first year player sophomore Marianne Bagnas.

Both teams, although they had upsetting seasons, played with determination, aggressiveness, and enthusiasm. With the teams consisting mostly of sophomores and juniors, they expect a better season next year.

Under the watchful eyes of Coach Lanny Boddy, the wrestling matches began. Coach Boddy, pointed to the spectators and the gymnasium was filled with a rythmic beat (stomp, stomp, clap! stomp, stomp, clap!) The crowd's beat, like a magnet, attracted the wrestler's into the gym and the yelling and cheering were supportive outburts as the team formed their circle and began their warm-up exercises. The cheering, yelling, and rhythmic beat commenced all home matches and continued until the end. "I looked up in the stands and saw all my friends there. I knew I couldn't lose," stated varsity member Kevin Patterson. The friends and spectators of the wrestler's were important to the team because they helped heighten the morale of each wrestler.

Wrestling is a test of endurance and precision in which quick reaction played an important role. But that wasn't the only thing. Determination and enthusiasm were required from wrestlers. Although the sport doesn't involve all the wrestler's wrestling at one time, they worked as a team. "Stick 'em" was heard from every wrestler as one of the members went on the mat to meet his opponent.

In the beginning of the year, Coach Monroe hoped to clinche Eastern League Title, but unfortunately their 2-1-2 record wasn't good enough. In Eastern League, Roderick B. Pagsolingan (105 lbs.) and Justin Sandoval (175 lbs.) took first place. At CIF, Joe Alegre (112 lbs.), Justin Sandoval (175/165 lbs.), Robert Beacham (165/175 lbs.), and Mike Ivory (heavyweight) went on to MASTERS held at Mt. Carmel.

With only two varsity members leaving, next year Coach Monroe predicts to take the Eastern League Title. "We (Morse High) will have a much stronger team and hopefully we will be Eastern League Champs," stated Coach Monroe.

CIF-SD AND EASTERN LEAGUE CHAMPIONS

Practices Led to Success

Dribbling the ball down the court. Weaving in and out through the opposite team. Whoosh! Another basket-two points. The cluster of people in the stands stood up and screamed. Stomping their feet made the gymnasium shake and rock. The top-ranked Morse High Hoopsters attracted another large crowd of faithful and spirited fans. The energy in the air at a Tiger basketball game was always high and the Morse players never disappointed us. They always came out on top.

This years's 1986-87 Morse Men's Varsity Basketball Team was quite successful. Under the coaching of Ron Davis, the team met daily for practices. The practices consisted of running and drills. The members of the team stretched and practiced on their basketball fundamentals, such as dribbling down the court, passing the ball, and making shots into the basket. The practices were geared to improve and perfect the teams performance. The long and tough work payed off for many members, such as top scorer point-guard senior Rey Parson. The team, with an overall record of 19-2, clinched the 1986-87 Eastern League Title.

Playing to their potential

Waking up before sunrise, a hard task for some students, was a requirement for the Men's JV Basketball team. The practices at 6:30 in the morning lasted for two hours and consisted of basic fundamentals, such as dribbling, jump shots, and passes.

The early morning practices helped the team to be the best in their field. With their overall record of 16-2, they became Eastern League Champions. Top scorer Larry Mothershed helped the team secure the title, but Coach Bob Cavaiola played a big part. "He expected each player to play up to their full potential and give 100% in every game," stated forward junior Mike Smith. He encouraged the members to do the best in whatever they did.

Another tough season

Coach McCarthy and Coach Brown led our Varsity and Junior Varsity lady Tigerettes through another tough season. Long and hard practices were part of their daily schedule that went into preparing for the 1986-87 season.

During the time that was spent in practice and playing in games, the girls learned each others strengths and weaknesses. They learned that working together was a very important part of the game and with encouragement from the spirited students and the other coaches, they did their best to come out on top.

Although this season wasn't the Tigers best one, everyone learned that team work, participation, and good attitude made our team what they are ... TIGERS!

The coming of a new year and the coming of a new season. After the spectacular winter season, with the Men's Varsity Basketball team clinching the CIF-SD title, Spring Sports had a hard act to follow. They began their season with motivation, dedication, and hopes of winning records. To make this goal, many students joined **Men's Tennis, Track, Softball, Baseball, Badminton,** and **Golf**.

Pitching in the Season

A Tiger baseball player stepped up to the plate to bat. He swung and "Crack!" The ball soared deep into center field. The spectators cheered as the player slid into home plate. Another Tiger victory.

Morse High School's 1987 Varsity and Junior Varsity Baseball Teams started their season with a bang. The aggressive games attracted many people. The varsity team was a powerhouse that strengthened their skills during their strenous practices. Led by Coach Len Arevalo, they practiced on their hitting, pitching, and running. The junior varsity team was under the guidance of Coach Mark Monroe. Like the varsity team, the junior varsity team held their practices afterschool.

Both teams gained great success as well as great experience.

Morse's 1987 Track Team is the largest team on the Tiger campus. Our top of the line athletes specialize in different events but have one thing in common, putting forth their best efforts giving Morse its reputation for excellence in track. Year after year track has continued attracting increasing numbers of supporters. The faculty has continued to show support by participating in minor but significant jobs during home meets such as timing and announcing. Tiger Tracksters have held Tiger pride throughout the year and many of them were extraordinary. One such runner is Yolanda Fitch, who was noted for her excellence in a San Diego newspaper after last years CIF track finals where she spear-headed our girls team first place victory. Charles Fishero also came forth as an important competitor as he lead county with his strong shotput and discus performances.

Consistency and Concentration

The Men's Tennis Team had a great season this year. In the beginning of the season, Coach Barbara Hinchman stressed endurance, strength, and stamina at the Martin Luther King Courts. Many hours of drills, running, and practices were spent to make the team the high caliber team it was. They practiced their serves, forehands, backhands, smashes, and volleys. At the practices, Coach Hinchman stressed consistency and concentration which inevitably formed a much better team.

The Morse Tiger team had seven returning players who improved the depth of the team, but basically the team consisted of novice tennis players. The new members added strength to the team and gained experience for next year. Throughout the season, Co-Captains Richie Almirol and Dean Ricario were the role models for the other team members. Manager Lori Spencer helped the players through practice, matches, and in preparation for the matches. The major philosophy during the season was to "Try your best and to have fun, because tennis is a fun sport."

Self-Motivation and Cooperation

The '86-'87 Morse Badminton Team had proved to be an enthusiastic and dedicated team. Along with ten returning players, many promising and motivated students came out to be part of this team. Coach by Mrs. Gladys Manlove, these students worked very hard in maintaining their grades and perfecting their game

"A team's attitude to play, self-motivation and cooperation are the most important factors in building a team's strength and enthusiasm." stated #1 men's singles's player, August Endaya. Also, a team's determination and concentration had proven to be successful for this team. Overall, this year's team had showed a lot of endurance and skill throughout the '87 season.

Tigerettes Display Skill

This year's Varsity and Junior Varsity softball teams displayed an outstanding ability of skill and aggressiveness. The Varsity team was coached by the ever experienced Coach McCarthy and the J.V. team was guided by newcomer, Coach Wade. The team had showed perseverance, endurance, and teamwork as well as good sportsmanship. Practicing afterschool, the softball teams exercised their hitting, catching, and throwing. With a tight defense and explosive offense, the Mighty Tigerettes were strong competition in the Eastern League.

Tigers with Drive

Golf is a sport that never comes to mind when you think of Morse High School. But Morse has its very own golf team. This is the fourth year that the team has been in existance. Composed of six young gentlemen and Coachs' Bob Mendoza and Ben Mendoza, practices were held afterschool at the Bonita Golf Course.

Through the long practices, these Tiger golfers learned the knowledge and skills of how to be a good golfer. They practiced on their drives and putting techniques.

The team played such schools as Bonita, Madison, and Mira Mesa.

MORSE HIGH SCHOOL'S 1986-87 MOST VALUABLE PLAYERS

Morse High School accomplished many goals this year. The Varsity football and volleyball teams made it to the CIF playoffs. The most memorable event was when our Men's Varsity Basketball Team clinched the CIF-SD title.

All these events wouldn't have been accomplished if it were not for the many students who participated in Morse's athletics program.

There was at least one athlete who excelled in his certain sport. That person was the Most Valuable Player. The Most Valuable Player was an "anything, but ordinary" person. He was a leader who motivated his team to do their best at all times. He attended practices regularly and had special skills that made him the MVP.

The following students have been named by their coaches and peers as the Most Valuable Player on their team.

Well fellow classmates, look's like the moment we have all been waiting for has finally arrived. Time sure does fly. I realize we must all go our separate ways, and make the best of our lives. Next, I would like to thank my parents, Larry and Stella Miller for supporting me in the most important years of my life. I also thank the both of you for being there when I needed you the most and for sharing all those special memories in my life. Now, Mom and Dad I must continue the path you have made for me but this time I walk in my own footsteps. I must go into the world on my own. It is time for me to make my own decisions. I know in order to succeed in life I will experience many difficult times, but it's not the problems that I conquer but how I solve them is whats important. "Mom" as you always told me, "if at first you don't succeed try, try, try again." With this thought in mind there is no way I can possibly lead myself wrong. The both of you have made me proud to be your daughter. In order to make you proud of me I must first make myself proud. "Dad," all those times when you would talk and it seemed as if I wasn't listening, I heard every word you said. "Mom", the times we didn't agree well now I realize you saw in me what only a mother could see. I understand that the both of you only want the best for me, but I have to see the world from my own view and learn from the mistake I might make on the way. Thanks Mom and Dad for all of your love and devotion. I Love you for everything. Kim Miller

TO THE CLASS OF 87: I must say this year has been the most enjoyable and memorable year of my life. I wish you all the best in whatever you may do in life. To Keith, you're special to me and I hope we spend the rest of our lives together. I love you. Mrs. Depass, thanks for everything. You were always there when I had a problem with my schedule. Ms. Young, Ms. O, Ms. Griffin and my teachers that I didn't mention if it wasn't for you giving me the education I needed, I wouldn't have made it. "THANKS" Love, Kimberly D. Lewis B.K.A. Lil Kimm C/O 87

To my parents whom I owe my life to. You did a terrific job as parents. You've filled my life with happiness. Thanks Kristi for being there when I needed you and even when I didn't. Thanks for all the good times we've shared, the sad times, and also the crazy times. You are a very big part of my life and we have a lot of dreams and goals that need to be fulfilled. And I know that the two of us can fulfill them if we put our minds to it. And to Red. I've known you for two years now and you're still as funny and sweet as ever. I want you to know that you're a real friend and your friendship means a lot to me. Don't let anything get you down. Listen to your heart and not your head. And you'll go far. (And I know what I'm talking about.) Good luck and K.I.T. P.S. I wish that you and R.P. would work things out. And to my girls. Kim Lewis and Kim Miller. Well girls we've finally made it. We've been together for 11 1/2 years and I'm glad that we're still friends. If you guys thought our sixth grade graduation was kicking, wait until June 16. Let's make this "live." I wish you both the best in life. And to Kim L., I wish you and your man the best of happiness. Keep up the good work and be good for my hunt. And to Kim Miller, Keep those guys in line, and don't get torn between two guys, just follow your heart. Best wishes to all of you, and may God bless us with the best in life. TO ROBERT AND THE REST OF THE GUYS ...

Romeo-When was the 1st time we hung-out? The summer of 85, wasn't it? It took longer 4 some of us but we became good friends. We've been thru so much 2gether. I can still remember our CRUE days. We kept the name & let others join. Remember when Robert 1st came around. He Became a true fren. But now he's leaving the CRUE Behind 2 live his own life. Rob, although we've only known U a short while, U've become like a brother 2 us. There were many adventures that would've never came about w/o U. Like the Singing Crue & those days we cruised 2 Plaza & C.C. How 'bout La Jolla & the whale. Or N. County & Solana Beach. Who could 4get Aliens? "Game Over!" Lots of things 2 reminisce about. Keep in touch. Remember, friendships last 4ever, U're still a fellow crewster. As 4 the rest of you guys, Let's make this summer another 1 2 trip over. No skyrides or Ravenloft, just another funfilled summer like our 1st. Till our senior year, The Crue 4ever!

Tom-Farewell 2 our good friend Rob. Take care of yourself & best wishes in all U do. We'll surely miss U. As 4 the rest of the guys, we've been fortunate 2 grow up 2gether. Congrats to Rome 4 finding true love. Gerald, U showed yourself as a true leader in R.O. U should think about developing your writing skill. Mark, I wish U wisdom & luck w/the girls. & Rew, I've never had a more loyal friend. U were always there 4 me. U would truly give all 4 a friend. Thanks on behalf of me & all your friends. Rome, train hard & remember, communication is the key. Summer of 87 approaches. Lets make it the best & safest 1 yet. Excell Class of 88. Greetings to Marc G., Pres. Nancy, Joe 1. & James N. Rex-Hey Rob! This is 2 tell U that U will 4ever be part of the Crue. We'll miss U & the great times we shared. Like having fun in the sun & going 2 the movies. It was alot of fun until the end. When U had 2 leave. I'm kind of sorry U had 2 leave before U graduated. But, hey, we had fun while it lasted. Take care & keep in touch. & 2 the guys, Rome, take care of yourself & Nancy. U gotta support both of U. Don't 4get, I grow as fast as U do. Tom, don't 4get 2 stop by 4 some Pan-De-Sol & let loose of your life sometime. Mark, be more careful in life. Good luck w/who ever U choose 2 be your girl. Take care U guys! Until summer! Mark-How U doing Rob? We're just fine. Ever since U left things haven't been the same. We'll always remember U. You'll be our brother 4ever. We've been thru alot 2gether & I hope we go thru alot more. We've had awesome times cruising around S.D. I know U won't 4get Breakers Beach. Remember the movies? The best had 2 have been Aliens. I'll never 4get it. & when we went crazy during Karate Kid 2. Remember Komiko's toes? I hope U come back soon. Or we might just go over to Guam. Gerald-"Wassup Rob, how's Guam?" The Crue & the rest of the guys miss U. 2 bad U had 2 cut so soon. Hope U're enjoying yourself. How 'bout those Pen-Pals U're supposed 2 find 4 us? I still have your 12" version of "Tonight". I'll give it back 2 U when U come back. 2 the Crue, Never 4get our O.G. days. I never will. Let's have a summer like 9th gr that was Rad! "Adios Amigos!" Ruth-2 the special person 4 whom this pg is dedicated 2, Rob Lucero. It's meant alot 2 know U since the 1st time we met. U're much 2 special 2 4get. U're some1 who's nice in big & small ways. I wish U the best in everything. 2 my only luv, Roland G. Thanx 4 inspiring me. I luv U babe.

This is really it. No more senioritis or short lunch periods. School anexities will become college anexities. There's a sad feeling that goes along when leaving MHS. The past 3 years had its ups & downs. Without a certain few, these times would've been boring. JINX:All these years you laughed with me all of the time. Silly goose. But that's the person I know and love. JOHN LEE:We had a few loops but you're still a good friend. ARDA:You seemed so fragile but you're a tough cookie! Good luck. MIKE:You did a good job with the CORPSE(the team not Doris) Take care. CLAUDIA: ROTC changed our friendship, but I'll make you a deal. Remember me as Mike, the nut. I'll remember you as Claudia the flake (snicker). Keep in touch. SHARYN: You'll be the most successful of us all. DINA: You've given me alot to think about during lunch. Maybe the best advice you could follow is your own. JOSE: I'm glad I didn't beat you up in 8th cuz you're a cool guy. ADRIANA: You're still a nice person so don't ever change. MARYANNE: Math was a trip & a stumble. AMI-MAL:Thanks ALOT! MARIANNE: Lil' sis the school is yours. Have fun & get that dude biscuit. PAULA: Is that a twig on your head? MICHELLE: You scare me. DAN: The walking hormone. MARY: When are we going to do that movie? JULIE:Where are you? FIELD HOCKEY: You guys were terrible. ALFRED:Go home, stay home. TAMMY: We're mature people. JOHN G: Keep the buzz. SAWYER: Spa! HEATH: Groo up. And to a few of my teachers ... MR.ROLLINS: Thanks for being patient with my sleeping habits. MR.KEITH: You're funnier than people give you credit for. MR.WONG: Wonderful teacher. MOM & DAD: What hath the wrought. TO ALL THE REST OF YOU WHO I DIDN'T MENTION: Fellow seniors, although this school will have no memories of us in three years, we will never forget. We have a reunion in ten years. Farewell MHS. God bless & may the years be gentle to us. Michael Bagnas

I made it through high school. It's hard to believe I'll be on my own. But Norma will be there to help me. My three years Morse weren't the greatest. I wish I would've done more but it's too late! To my friends that helped me cheat in my classes! Just joking. You guys know who you are though. It's been nice having you as friends to talk and trip around with! Remember Mrs. Gonzales? ROTC I'll never forget you. Norma Remember when we first met out at the beach? Remember when I first asked you? I was really confused for a week. But that's what I like about you, you're unpredictable! You mean alot to me. I love you and I'm lucky to be with someone as special as you. Thanks for all the loving and caring you've given me & sorry for the mess I got you in. Love you Bambino. Bye for now, Karey Lee Wink

My Dearest Karey, How do I start this, I have so much to say, but little room to say it. I love you very much and you are the only guy I ever trusted. Even though we have been through some bad times we also had good times. Remember our dates at the basketball game and the day at Balboa Park? EVERY single moment with you is so special and precious to me. Thank you for entering my life FEBRUARY 3, 1986. I cannot believe we made it through a year without breaking up. Without you guiding me on, I do not know what I would do. In my heart you hold a special piece that no other can hold. With all my love, Norma Fe Caducoy. P.S. Mary and Edwin, I wish you the best of luck. Drill team, I love you all and keep up the good work!!! And good-bye Morse High! I will miss you!! Seniors, See you in ten years!!

So ends my journey through high school and the beginning of an even greater journey through college and the real world. My three years at Morse have been very memorable due in part to my friends, teachers and my own irrational thinking. As you can tell I'm in one of those serious moods one is prone to encounter. While in this mood I would like to thank the following people. Mom, what can I say that hasn't been said except that I love you and thank you for your support throughout my life. My sister, Irene, thanks for the fun times, the battles, and comradarie that we shared. Mr. Lunsford, more than just a teacher but also a friend, thanks for everything. The intellectuals in IS, Jose, Russell, Joy, Lilian, Judy, Charles, Etchell, Beth, John, David, Geoff, and Phong. Colonel Webb and First Sergeant Nordman oorah to a job well done. To the Morse JROTC Battalion and the Battalion Staff, may you continue your winning ways. My advice to the younger generation is to strive to the fullest of your abilities and avoid the mundane distractions of everyday life. Good luck to all of you and your future endeavors. It has been an interesting experience. Arldwin E. Flores. P.S. Juniors and sophomores, heed my word: Take care during all of your years at Morse and beyond. Work hard and do your best while you still can. High school is your last chance to prove yourselves. Also, listen to Mr. Lunsford, he really does have some terrific advice. His words of wisdom have helped many seniors this year and will probably continue to in the future. Sophmores, ease up on Mr. L. Juniors, watch out for senioritis, it will kill the grades you've worked so hard for. Seniors, good luck in the future. May you all be prosperous and reach the goals you set. Bye Morse!!

Good luck 2 the CC team because I luv u all & I expect 2 see u kicking

Hi everyone! Here is my final piece to fit into the jigsaw puzzle that is more popularly known as Morse High. While some pieces were a little more warped and harder to fit in then others, I can still say that I'm glad that my puzzle is complete (pending, that is, the receiving of my diploma). To those in mock trial, I can only say that I've objected to all of your comments about my blue dress, but nevertheless, we were still a great team (after all, we made it to the state finals). To Karen R., remember that your hand didn't move, you are Mr. Smith, and there is nothing but dirt in your saddlebag. To Marjoel, you will always be my "better half." And Gina, stop marking things out! As for you, Iritz, twenty isn't enough and you still owe me some cookies. York, stop being so pompous and Jeanette, "Like totally!" As for you ISers, you will always be part of my high school memories (both good and bad). Keith, stay on your side of the self, and you sound just like Mr. Pilgrim. Karen, good luck at Mt. Carmel, you'll need it. Robby, try not to rip your shirt. Brad (007), what's the password? Huey Lewis? Paul, stay out of my space (at least 1 IPU)! Cyril, where did all your buttons go? Mr. Lunsford, thanks for letting me graduate. Mr. G., thanks for teaching me why history is important. Mr. Keith, thanks for putting up with me. Mr. Law, stop trying to change my questions! Mr. Oden, thanks for letting me do my science project. As for Lil Wil, Almond Joy and Etcha-sketch we will always beat the guys in tug-of-war. See-ya! Laura Schum (aka: La-shoo, Super Schum, and Schummy)

After 18 years it's finally time to move on to college life! So I guess now is as good a time as any to say farewells. First of all to my family, thanks for putting up with me for so long. Good times and Bad . . . we survived. THANK GOD! I.S.ers don't shut the rest of the world out . . . it has too much to offer! Ryan, Robby, Keith, Brad, Paul, Roger and Aaron don't o.d. on movies . . . if you must at least have the decency to invite me . . . even if I always say NO!!! To my very special friends, Russ, A.P.L.E, JoPo, Arldwin and Charles, thanks for years of fun and laughter . . . Russ, I don't care what you said about my boots, I still like them with or without spikes! I just want you guys to know that if you ever need me I'll be there. Now to the "Other Half", Joy and Etch remain calm. We'll beat the guys again, just ask Laura. Judy and Traci try and stay out of trouble! I'll be praying for the campuses who take you! Finally to the one and only Uncle Bob, thanks for the gift of KNOWLEDGE. Let us both hope that I am now capable enough to utilize them at somewhere else besides Ralph's! You've done so much for me, maybe someday I'll be able to repay you with a new tie clasp to match your banana tie. Gosh, I'll miss you . . . after all, you've been the only English teacher I know who would be crazy enough to take on 50 demented kids who THINK that they're something special . . . hmmm, maybe or maybe not! You did an unusually GREAT job with what little you had. Thanks again, I'll always value what you've given me. Good bye for now cause I'll keep in touch. Before I go, however, I would like to say how special you all are to me. I love you guys . . .
Just Me, Lilian Willter (Lil Wil)
P.S. Chris & Alan thanks for the name, I hope I earned it!

Reggie Regala, a yearbook staff member claims, "It's the hardest job you'll ever love!"

HOW DEEPLY I LOVE YOU-Stephen, we took a special chance, the first time we met, we both knew enough about love and life to understand that two people do not just fall in love, they grow into it slowly. Baby, through the times we have been together, I would like you to know that my love for you has grown stronger. I have opened my heart to you and gave you an everlasting love. I am glad that you came into my life and showed me a love that was so true. Thank you for never giving up on me, because I am finally realizing how much you truly mean to me. No one else can be so tender, loving and caring like you are to me. You and Christina have made my life complete. Stephen, never forget the times we have shared and the memories we have made. Especially the tears we have shed, it made us both realize how much we do love each other. At times we have been so jealous and insecure, but if we really think about it, we have no reason to act this way. Nothing can take our love and us away from each other, because we took that special chance and have that special love that grows in us. I LOVE YOU, BABE! My heart will always be yours, =NOW AND FOREVER= With all my heart, Cora (Bobut). TO MY DEAREST FRIENDS: LEMAZ-Arlene- You have cheered me up when I was down. I love you for being so caring. Hi Martina Nguyen my weekend friend. Brian act your age. Suzanne let's make fun of him again. John G. I hope me and Arlene didn't drive you crazy in art class. Ruthie thanks for helping me make it through my first year at Morse. I won't ever forget our "bowling alley" days. Charles S. you baseball freak. Heath stop it with your lollipops. Ephraim M. Don't become like your "Alkee" friend. To my LEMAZ group: Arlene, Anna, Cora & Jeannie. You are the best friends anyone could have. Remember when we first met Jeannie? I never thought we would become great friends like we are today. Thank you for listening to my problems, I don't know who else I would have turned to. And thanks for taking time out to go cruisin'. Cora "Truth or Dare"! That best describes you. You are a real trip, you would do or say anything when we least expected it! Say "hi" to Steve and Christina Maria for me. Anna I can't wait till you come back. We have lotsa catching up to do. I miss those morning breakfasts, going to McDonald's, Plaza & Seaport with Bernard. Those were the days. I remember when we wanted to go to a classe dance, either your dad came home late, we couldn't go, we didn't know the way or we didn't have a ride. It's different now. Remember at Plaza when you hit Bernard and he said, "I can't breathe." Funny, huh? And don't forget our lunch at Orient Express. Arlene we seriously laugh too much! You have been super fun to be with. Remember Albuquerque, Don, Jonah and the Jonah stealers? Don't forget our cha-chas! We have a lot! Remember the badminton bonfire? We would like to extend our deepest gratitude to these individuals for their extreme generosity in supporting the 1986-87 Morse Annual Staff. The support they have given us has allowed us to publish a great yearbook. The funds they donated helped us tremendously by decreasing the cost of the annual.

To God who is first in my life and the major source of strength. Thank you for being someone I could call on in times of trouble and for listening to all of my problems and supplying my each and every need. For moving every mountain that got into my way. To my parents and family who stuck with me through thick and thin who gave me the courage to continue even though the road was rough and the going was even tougher at most times. And for saying NO when I wanted you to say yes. But saying yes to all my needs. To my teachers who taught me all they could. For it was up to me to take in the information they were giving out free. And last but not least my friends: Kim P, Lisa R, Arlene R, Arlene M, Chrishana, Nicki E, Nikki P thanks for standing by me. I love you all. To the very special people in my life, my brothers Al and Paul and their wives Baby and JoAnn. You brought out the sunshine in my life. To Isiah Johnson, a short but very special part of my life you meant so much to me and I will never forget you. I Love You. To all of my friends I travel with Tracey, Nicole, Monique. You all are the best friends a person could ever have. To Shawn Holmes sorry that things didn't work out the way we wanted them to but Salavie.Maybe we can try again later on in life. To my friend Cheryl G. hope you have the best in life, and maybe the first one will be named after me. To all my friends on Annual Staff stay cool and crazy. Arlene, Arda, Candy, Flora, I have known you'll for 2 years now and it has been a total trip you guys are some kind of friends. To Angie C., I wish you and Mark the best in life don't forget me chick ya here. To Goldie and Lee the nicest little family at my church I want to thank you for the being someones that I could call on in times of need. To Deidra and Blue the people who gave me a job just when I needed a money supply. To my all my kids: Quentin, Daunte, Sade, Kevin, Belinda, and Shanita you all are the best. To Brenda and Wayne, I would like to thank you'll from the bottom of my heart, in my time of serious need you were there for me I love you. To my pen pal JoAnn in Alabama I shall never forget you no matter what and we can't let the miles get between us. No matter how far we are away from each other, we are just a phone call away. To Alexander H, and Curtis R, you are some of the livest young men in southern Alabam, also the craziest. Stay that way for me will ya. To Ronnie a young man I had a chance to get to know for a while at least. I want you top know the time we shared together I shall never forget and I love you in a special way. There're things I've done this year that I shall never forget like Home Coming night. Dominique and I went in a limo. That was a trip. Also the Magic Mountain trip everyone was kickin it real live. It sounds crazy, but it's true. I'm going to remember everything about my 3 yrs. in JROTC, and I hope you will too. Thank you very much for all you've done. Especially thanks to the senior let III's. In Memory Of . . .

Alton Taylor
March 19, 1971- November 24, 1986

In rememberance of Alton "Tico" Taylor. He was a very caring person, he hated to see people down and out. He was a happy young boy and had an unbreakable spirit, he was always willing to lift someone's spirits when they were feeling down.

Those who knew Tico know how much he loved his family. Whenever he had a problem, he prayed and put his trust in God.

Michael Imperio
June 28, 1970- March 2, 1987

We will cherish the special memories that Michael left us all. His bold spirit and irrepressible humor will never die in our hearts and in our minds. He was a source of laughter and comfort and gave his time generously to those who needed it. Michael, never selfish only giving, will never be forgotten.

Eric Warner
November 22, 1971- April 21, 1987

Eric Warner will always be remembered as a good, thoughtful, and understanding friend. He will be remembered for the rest of the lives of those who loved him dearly. Eric was known as a very quiet young man, but to those who loved him, he will be thought of as a person who had no limits on friendship.

Mr. Luna was a very inspirational man who will never be forgotten. He was a wonderful teacher and friend. Among the things he held very dear to him were his family and friends, his book, travels, and his hobby of running. Before his death, he wrote a book which dealt with fictionalized accounts of student demonstrations during the 60's which took place in an east L.A. high school. He used this book to fulfill his requirement for his Master's thesis at SDSU. He is survived by his mother, his brother, George, and his daughter.

We, the annual staff, are acting to the request of Mr. Luna that he not be pictured in this year's annual.

Look death
in the face
with joyful hope/
and consider this
a lasting
TRUTH:
the righteous man
has nothing to fear
neither in life,
nor in death,
and the gods
will not
forsake him.

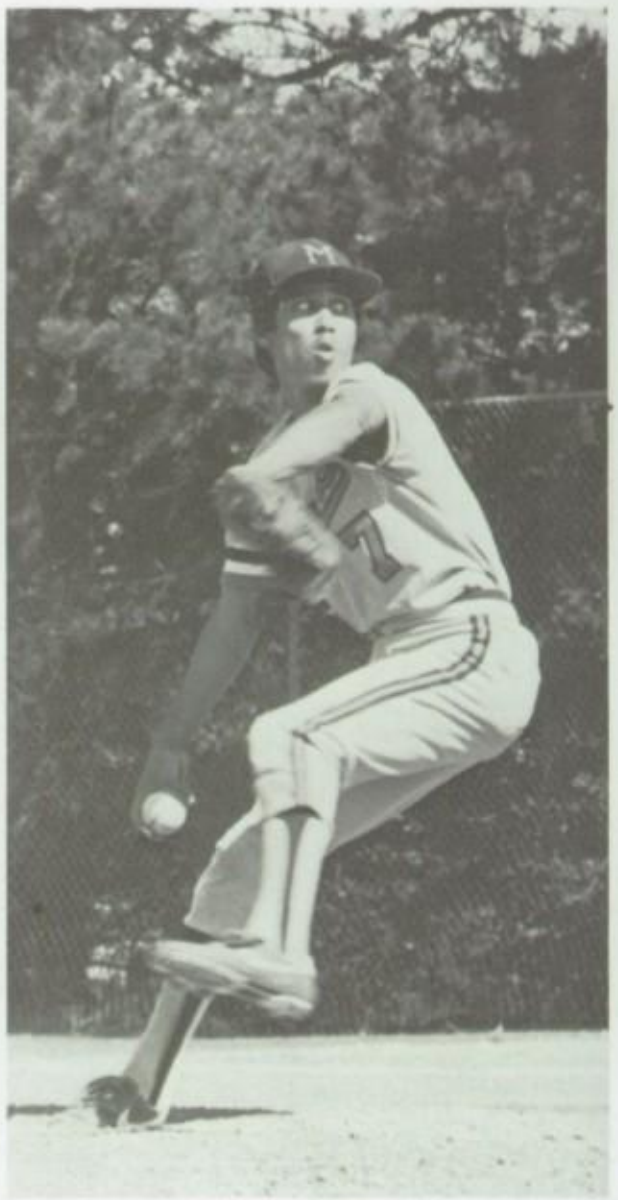
They Will Always Remain In Our Hearts

People

Hunks whose hearts throb: the Pauls flexing their pecs in *The Barbarians*



TopLeft: They look like Conan's long-lost cousins and even call themselves "the Barbarian Brothers," but they are just Romeo Cruz and Reggie Regala: two truly insane year book staffers.
Top Right: Romeo Moe pitches and thinks to himself, "This is gonna be another strike!"
Bottom Right: Spirit Week causes a historical relapse for this confused Tiger.
Bottom Left: Jeff Alegre smiles amongst the midst of the crazy Senior Class of 1987.

Closing Thoughts

You, the student body of Morse High School, have finally witnessed the long awaited for yearbook. The memories of this year shall be celebrated in our thoughts for the rest of our lives and will be remembered as a year that was "Anything, but Ordinary."

Left: Derwin Proby asks, "Like my hat? See, I have school spirit- do you?"
Bottom Left: Roderick B. Pagsolingan displays his letter-men's jacket with his many hard earned medals.
Right: Rey Alfonso frightened by the camera.
Bottom Right: Jose Poveda exclaims, "See Teri, I told you I'm photogenic; the annual staff is always chasing me for pictures."
